

## DUPLICATE OF CORNING, N.Y. ACCIDENT

Twenty-one Persons Killed Near Latrobe, Pa., When Freight Hits Excursion

### 30 INJURED, MANY FATALLY

Frail Wooden Coach Crumbles Under Impact of Double Header Behind

LATROBE, Pa., July 5.—Twenty-one persons were killed and 30 injured, a large number fatally, at 3:40 o'clock this afternoon, when a passenger train on the Erie-Genesee Valley railroad was smashed from behind by a double-header freight train. Only one passenger escaped without injury. The accident occurred at the fair grounds at Wilpen, one and a half miles from Ligonier, a summer resort.

The dead: MRS. HARRY DILLON AND BABY of Wilpen, crushed to death. WILLIAM CAMPBELL of Wilpen, crushed and scalded. FRANK MCCONNAUGHEY of Ligonier, crushed and scalded. GEORGE BYERS of Ligonier, fireman, crushed and scalded. LOUISE RHODDY, aged 8, of McClelland, crushed. ELIZABETH RHODDY, aged 13, a sister. JOHN M. ANKNEY of Ligonier, fireman, died on way to hospital. MRS. M. ESSE of Wilpen, crushed. THOMAS MITT of Latrobe, head crushed. GEORGE TOSH of Wilpen, body smashed. MIKE HUDOCK of Wilpen, side crushed.

FRANK OVERTON, aged 10, of Wilpen, mutilated. MRS. JOHN OVERTON, mother of Frank, died on train bound for Pittsburg. UNIDENTIFIED BOY, aged 12. FIVE UNIDENTIFIED FOREIGNERS, badly crushed. A majority of the injured were residents along the Wilpen branch. They were brought to a hospital here or sent to hospitals at Pittsburg when it was found they were in a critical condition.

Engine Ploughs Through Coach. The passenger train had started from Ligonier. It consisted of an engine and coach. The engine, pushing the coach, the freight train was made up of many coal cars and was being pulled by two heavy locomotives. Every seat in the lone coach was occupied with persons returning from a Fourth of July holiday. The impact was terrific. The freight engine ploughed through the wooden coach, crushing it as it would paper. All the occupants were hurled to the roadside. Some fell in the path of the onrushing engines, while others were imbedded partly in the cinders and crushed stones beside the rails. The first engine of the freight train

## REBEL TROOPS REACH JUAREZ

EN ROUTE TO CASAS GRANDES REGION

Rumor of Attack on El Paso, Tex., Added as Absurd

JUAREZ, Mexico, July 5.—The transitory state of the Mexican revolution—its passage from an organized military campaign into a guerrilla warfare—brought nearly 2,000 rebel troops here today en route to Casas Grandes and the region along the Mexican Northwestern railroad about 100 miles south of the border.

Hundreds of women and children, mostly refugees from Chihuahua city, now in the hands of the federal government, came with the troops. Homeless they camped in the streets tonight, cooking their meals on stoves and sleeping in the open.

Gen. Pascual Orozco, the rebel chief, spent the day at San Juan 30 miles north of Chihuahua, giving final orders to 2,500 cavalry which he directed westward across country toward Casas Grandes and the state of Sonora, now the rebel objective. He will arrive in Juarez tomorrow.

Rebel Leaders En Route. Three of the five troop trains which left Chihuahua where the federalists defeated the rebel army two days ago, had reached here at 6 o'clock. Two more were on their way and in one of these General Orozco was said to be coming. Gov. Felipe Gutierrez and members of the rebel legislature, arrived today.

Those who witnessed the battle of Bachiimba declare the federalists had every advantage, driving the rebels away long before they intended to retreat. When the last troop train was pulling out of Bachiimba, scattered fire from federal cavalry was directed at it by the passengers calling frantically to the engineer for speed. Even late last night firing from the federal cavalry outside the city of Chihuahua was said to have been heard, heralding the approach of the federal vanguard.

Brand Rumors as Absurd. EL PASO, Tex., July 5.—Col. Pascual Orozco, Sr., father of the rebel chief, denied today the report from Washington that the rebels would direct artillery fire across the international line to destroy the plant of an El Paso electric lighting company. The story has been in circulation here for nearly a month, but officials here representing the department of justice, the state and war departments, after having investigated, reported they did not believe any such contingency probable. Gov. Felipe Gutierrez, rebel executive of the state of Chihuahua, said of the report:

"The story is absurd. The rebels intend to do nothing to provoke international complications of any kind. Our fight is against the Mexican government and no other."

No Attack on Juarez Planned. Notwithstanding Governor Orozco's report to Washington that he would send the Texas militia to El Paso, army officers here regard the situation as peaceful and believe no more troops are needed. It is generally accepted among those close to rebel headquarters that no fighting is likely at Juarez.

## SENATE FAVORS TWO BATTLESHIPS YEAR

Naval Appropriation Bill, Containing Increase Provision, Carries \$133,609,674

WASHINGTON, July 5.—The naval appropriation bill, carrying \$133,609,674, and two battleship provisions, was passed by the senate today. It now goes to conference with the house to thresh out the naval increase program and other senate amendments.

It thrashed a lively course in the senate. Senator Johnston of Alabama proposed a substitute provision for one battleship, and gave notice that he would propose when the Panama canal administration is considered, to deny the use of the canal to all nations which do not agree to build only one battleship a year. He said the United States should end the wasteful battleship competition with Europe by entering into treaties with them to cease building such vessels. The Johnston canal-battleship provision was rejected, 12 to 43. Senators Bacon, Fletcher, Johnston, Kern, Pomeroy, Smith of Arizona, Tillman and Williams (Democrats), and Brislow, Burton, Clapp and Granger (Republicans), voted for it.

An amendment was adopted to make the recently enacted eight-hour law applicable to work on new ships. The senate rejected the amendment that proposed reviving the grades of admiral and rear admiral.

## CALIFORNIA PROGRESSIVES RETAIN NAME REPUBLICANS

SACRAMENTO, Cal., July 5.—A conference of California Progressive Republican leaders, with Governor Johnson, here today, resulted in a decision, it was authoritatively stated tonight, to make the fight for Roosevelt in California under the designation of the Republican party.

Effects now will be directed toward the election of Progressive candidates for the state senate and assembly, as they will comprise the delegates to the state convention to be held here September 24, three weeks after the primary election. In addition to the drafting of a platform, the convention will choose the state of presidential electors.

In this convention should be controlled by Roosevelt men, supporters of President Taft to vote for him would be under the necessity, according to the state law, of circulating individual petitions for a ticket of 113 electors.

Some of Plans Indorsed. Others were indorsed as well. The good roads movement for a national highway, conservation of natural resources and conservation of the environment of forest reserves bills for betterment of the children's bureau.

(Continued on Page Three.)

## EQUAL SUFFRAGE IS PASSED OVER

MOTION FOR CLUB WOMEN TO ACT, RULED OUT

General Federation Adopts Resolution Calling for Simplified Elections

SAN FRANCISCO, July 5.—Equal suffrage was snubbed as an issue in the general federation of Women's Clubs today, and cannot come up for general discussion again until the next biennial meeting, in 1914. An unexpected motion by Mrs. Charles Edwards of Los Angeles, that the convention will go on record for suffrage, was offered from the floor and ruled out of order by the chair. Mrs. Philip N. Moore of St. Louis, the retiring president, ruled that all motions must come before the convention from the committee on resolutions. She explained that the purpose of the federation was to educate women in all things looking to their betterment, and that the present sense of the committee was that Mrs. Edwards' resolution would tend to make that work more difficult, and that she was indignant.

Mrs. Washburn of Washington protested spiritedly against the decision of the chair.

Ballot Would Be a Tool. The higher she said, would not be a tool in the hands of women to shape legislation for their own help and their children's, by the weight it would carry with the state legislatures.

At the height of the discussion, Mrs. Mary Garrett Hay, president of the New York Equal Suffrage league, caused a surprise by introducing a resolution to modify the procedure of electing officers. Despite protest, her motion was ruled in order and adopted. It provides for simplified elections.

Mrs. Frederick Nathaniel of New York, president of the National Consumers' league, sharply questioned the chair's right to recognize her motion and throw out the other.

The convention adopted a number of resolutions, among them a vote of appreciation to President Taft for his appointment of Miss Julia Lathrop to the head of the children's bureau.

(Continued on Page Three.)

## MRS. DECKER OPERATED ON

Outlook Last Night for Her Recovery Was Very Favorable Daughter Will Reach Her Today

SAN FRANCISCO, July 5.—Mrs. Sarah Platt Decker of Denver, the well-known suffrage leader, who was operated on today at a sanatorium to remove an intestinal obstruction, was resting easily tonight, and it was reported that the outlook for her recovery was very favorable.

(Continued on Page Three.)

## WRECKED TRAIN HAD \$900,000 ON BOARD

Treasure Was Exposed When Car Was Demolished—Thirteen of Dead Unidentified

CORNING, N. Y., July 5.—Of 180 passengers killed in the worst collision on the P. & N. Y. railroad near here yesterday, 13 remain unidentified. Of these six are local farmers, and seven in Elmira. In several instances bodies are so badly mutilated that identification of their identity seems a remote possibility. The unidentified dead comprise six women, five men, an eight-year-old girl and a 10-year-old boy. Mrs. Charles Brande of New York city, mentioned in reports in the press dispatches as among the dead, was not on the train. This became known when Henry Hentz, a cousin of Brande's, arrived at the morgue tonight and identified the body but said that Brande's wife and four children were at home in New York.

Later the body of the young woman supposed to have been Mrs. Brande's was identified as Mrs. C. A. Massengale, Asst. Editor of the Elmira Star. She was married on Wednesday at Poughkeepsie, N. Y., to a Massengale.

It became known today that the express car next to the engine of train No. 14, which was badly damaged in the wreck, contained \$500,000 in currency and \$400,000 in "valuable shipments."

The front of the car was demolished and the treasure exposed, although none but the express messengers knew of its existence. A special crew hastily armed, was dispatched from Elmira to guard the hoard which was sent back to Elmira and shipped west late today.

Engineer William Schroeder of the express train, is reported tonight to be in serious mental condition and under the care of physicians.

(Continued on Page Three.)

## GRAND OFFICERS OF ELKS IN PORTLAND

PORTLAND, Ore., July 5.—The grand lodge of the Benevolent and Protective Order of Elks, 4145 said, probably will veto the proposition to rebuild the Elks Home at Redford, Mich.

The new home committee of the grand lodge, was in session here today, and it seemed to be the feeling that at present, at least, the proposition should be indefinitely postponed.

The grand and auxiliary committee also held sessions today, but no business of importance was transacted. J. J. Sullivan of New Orleans, grand exalted ruler, and his party of grand lodge officers, arrived late today.

(Continued on Page Three.)

## WILSON WRITING 10,000 LETTERS

WILL MAKE PERSONAL ANSWER TO ALL

Tented City on Lawn of Sea Girt Home Will House Extra Stenographers

SEA GIRT, N. J., July 5.—Governor Wilson spent a comparatively quiet day today. He had a long conference with William C. Brewster of New York, whose name has been mentioned in connection with the chairmanship of the Democratic national committee.

A general conference of the Senate and of the House of Representatives was held at the governor's residence. Mr. Wilson would discuss their progress.

Governor Wilson began today to answer personally, if possible, each of 10,000 letters and telegrams he has received since his nomination. He dictated two letters today, but with a corps of extra stenographers who have been summoned, and who will work in tents on his lawn, the governor hopes to make greater impression on his voluminous mail before his departure for Chicago to attend the meeting of the national committee, there on July 10.

Marshall Amuses Running Mate. If this permits the governor will stop off in Indianapolis on his way to Chicago, probably next Sunday, to visit his running mate, Governor Marshall. The latter amused Governor Wilson with a little today with a telegram reading:

"May Sea Girt, N. J., go down in history with sea girt Salamis. Fully one-half of my messages promise Republican support to the ticket."

Salamis is a sea girt island in the Gulf of Argina, near which the Greeks under Themistocles defeated the Persians in 480 B. C., and of which Salamis and Argina were natives.

The governor's mail was thinned today with requests for speaking engagements in many states. In addition, Thomas C. Burke of Oregon, a brother of Governor Burke of North Dakota, called to pay his respects and remind the governor of the desire of people in his section to hear the message.

## Seven Chicagoans Succumb to Heat

CHICAGO, July 5.—Seven dead and a score of threatened cases of heat prostration, among them the case of the police chief, thus far this year. Excessive humidity, reaching above 90, and a maximum temperature of 92 degrees, resulted in great suffering.

The late W. S. Stratton provided in his will that the buildings and grounds owned by him be given to the city of Chicago, and it is understood that the city will be greatly under the amount.

(Continued on Page Three.)

## Issue Call for Fremont County Progressives

CANON CITY, July 5.—A call for a meeting of Fremont county Progressive Republicans was issued today by Dr. J. H. Dickinson. The purpose of the gathering is to decide what course progressives in the county shall take in regard to the third party movement. The meeting will be held next Monday evening.

(Continued on Page Three.)

## HOPE TO OPEN ONE COTTAGE JANUARY 1

Stratton Home Trustees May Engage Architect Briscoe and Also Supt. Cowen

WATER PIPE LINE STARTED

Preliminaries Being Rushed. First Unit of System to Accommodate Over 60

To open the doors of the first unit of the Stratton home at Broadview to the needs of the men, women and children, with Superintendent Cowen, now of the State Home for Dependent Children, in charge of the inmates, and with Morris Briscoe, architect of the Denver federal building, as the successor to George Edward Burton as home architect, are the plans of the trustees of the Myron Stratton Home corporation.

Just when actual construction work will begin cannot be announced yet, and it is not certain that the above plans will be carried out. A report from the trustees, however, indicates that the trustees of this city, another trustee, last night said that he did not care to talk concerning the plans, but practically corroborated the report quoted last night.

Dr. Dickinson said that it is not quite the proper time just now to give out details regarding the engagement of Messrs. Cowen and Briscoe, but did not deny that they probably will be employed in the respective capacities mentioned. He declared that no time can be set now as to the date actual construction will begin, but intimated strongly that the trustees hope to have the first unit complete finished by the closing of the year. He said that considerable work must be done in addition to the construction of the cottage itself, before inmates can be accepted, but seemed hopeful that the home will be in actual operation by January 1.

Pipe Line Started. A pipe line has been started to furnish water to the proposed building, and various other details are being rounded up.

The late W. S. Stratton provided in his will that the buildings and grounds owned by him be given to the city of Chicago, and it is understood that the city will be greatly under the amount.

Although his illness has made it necessary to engage another architect, it is understood that Mr. Stratton's analysis and sociological report will be followed closely in planning the regulation and development of the home. In his report he makes four divisions: the aged, the sick, boys and girls, and takes up exhaustively the conditions surrounding each. The matter of instruction with special reference to industrial work, as well as the finer points necessary to the formation of a model home, are taken up at length in Mr. Stratton's report.

## PRESIDENT WILL RECEIVE NOTIFICATION AUGUST 1

Will Hold Ceremonies at Washington at Which to Hear Action of Republican Convention.

BEVERLY, Mass., July 5.—President Taft will receive the formal notification that he is the nominee of the Republican party for president at the White House in Washington about August 1. The president told his visitors at Paramatta today that he had talked with Senator Root of New York, permanent chairman of the Republican national convention, and that they had decided that the notification should take place in Washington.

It is probable Mrs. Taft and the Taft children will leave their summer home here tomorrow day to attend the notification ceremonies.

The president has planned a reception for national week to take place in the city of the Republican national committee, which is to meet him to go over the situation and hear his suggestion for chairman of the national committee.

Several hundred invitations have been sent out also to prominent Republicans of the country, and it is expected there will be a disposition to get together and plan the fall campaign. The president has not changed his mind as to a chairman of the national committee, and it is said that his secretary, C. D. Hilles, probably will be selected.

President Taft explained to callers today that, as far as he is concerned, the row between Secretary of the Treasury MacVeigh and A. Platt Andrews, the assistant secretary, who resigned, is a closed incident, and no intention of discussing in detail at cabinet meetings next week the charges made by Mr. Andrews.

The president was said today to have taken the position that Mr. Andrews should be discharged orders to resign to attend the Republican convention.

## DEMOCRATIC SENATORS LOSE VALUED SUPPORT

Insurgent Republicans, Unable to Get Consideration of Own Measures, Will "Play" Alone

WASHINGTON, July 5.—The working agreement between the Democrats and insurgent Republican senators is at an end. It has been abrogated as the result of conference even after the metal bill was passed in the senate by the Democrats in the absence of regular Republicans, and without the aid of the insurgents.

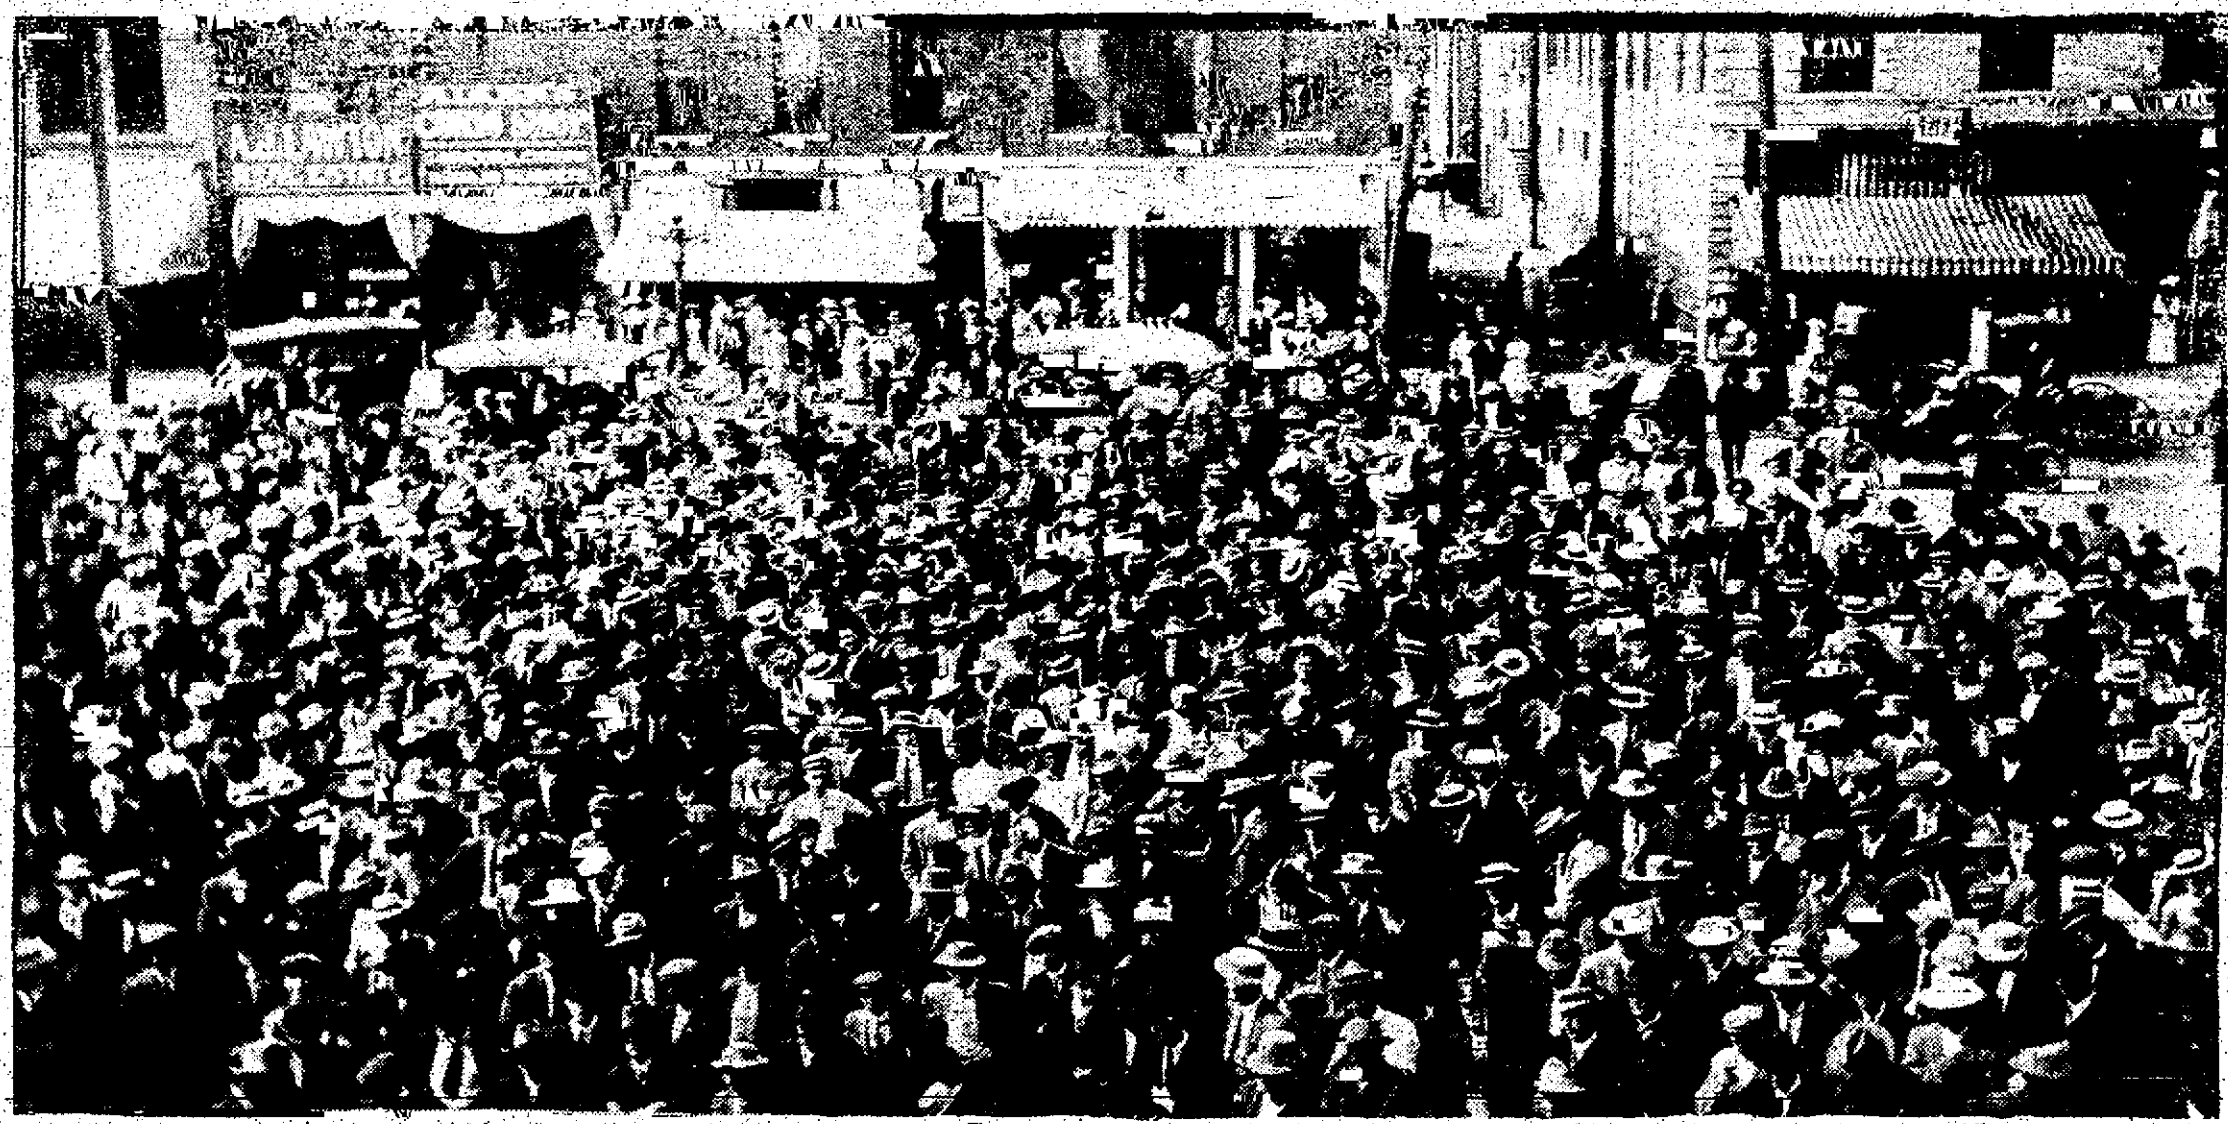

The probable result will be that the house sugar and wool excise bills will be presented to the senate and voted down by a strict party vote. All the Republicans are expected to vote against them; and it is probable some of the Democrats will join them in opposition to the house sugar bill, which would admit sugar free of duty.

Following the passage of the metal bill, the Democrats appointed a committee to confer with the insurgent Republicans regarding future cooperation. Finally the Democrats of the committee were notified they could expect no further cooperation because of the impossibility of getting consideration of the insurgent measures. This condition was produced by the decision of regular Republicans to disappear from the chamber in sufficient numbers to allow the Democrats to get their own bills through without the aid of the insurgents. This program rendered it impossible for the insurgents to get even a vote on their measures, and they decided not to "play" any longer.

## RANCHER'S NECK BROKEN

CHEYENNE, Wyo., July 5.—John Randolph, a rancher living near Buffalo, Johnson county, was killed yesterday in a fourth of July accident. While driving into Buffalo his team of horses became frightened by the explosion of a distant firecracker. Randolph was thrown out and his neck broken.

## RECEIVING THE FIGHT RETURNS DIRECT FROM THE WIRF

A portion of the crowd that gathered in front of The Gazette office Fourth of July to hear the first news of the two big fights. The photograph was taken from the second story window of The Gazette building, and one-third of the crowd close to the building was not in range of the camera. There was also a large number of people at the two edges of the crowd who were missed by the camera. The Gazette telegraph operator with a megaphone, called off the story to the crowd, word by word, as it came over a direct wire.

## Aged Squatter Kills Man He Believed Had Come to Eject Him

REDONDO, Cal., July 5.—Believing the land on which he squatted 26 years ago was about to be taken from him, William Wright, 82 years old, the first resident of Redondo, shot and killed John Buntz, a contractor, today. He used a shotgun that had not been fired for 30 years. Buntz, who recently leased a portion of the land on which Wright had squatted, today went to look at it. A quarrel and the shooting followed.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

## SENATOR CUMMINS AGAINST NEW PARTY

WASHINGTON, July 5.—Senator Cummings of Iowa, Progressive Republican candidate for the presidential nomination at the Chicago convention, today formally declared against the new party movement led by Theodore Roosevelt, and announced his allegiance to the old party. In so doing, Mr. Cummings declared, he could not be escaped by organization of new parties, and said that those Republicans who, after intelligent inquiry, conclude that President Taft's renomination was the result of fraudulent votes, "the nominees of the convention is not the nominee of the Republican party." He pointed out, however, that disappointment or individual dishonesty cannot be a foundation of a new party.

John G. Capers of this city, South Carolina member of the Republican national committee, who supported Colonel Roosevelt at Chicago, also formally announced his intention to support President Taft's candidacy. Mr. Capers, in a statement, said the work of the majority of the national committee was "not one whit more severe than the steam roller methods of four years ago."

Senator Cummings' statement was his first public utterance since the Chicago convention renominated President Taft. Mr. Cummings pointed out that throughout his public life he had been fighting to make the Republican party the progressive party of the country, and that, while he had never hesitated to denounce party politics when he believed them to be wrong, or to criticize party leaders, he had always believed, and still believed, the Republican party offered more hope for the substantial progress toward good government than any other political organization.

"I believe," he said, "that we can solve the problems before us more successfully through the Republican party than through any other political organization."

"It was but a short while ago that the Progressive movement in the Republican party took on definite form, and yet at this time three-fourths of the Republican states are in the hands of the Progressive Republican organizations, and the membership of the party is overwhelmingly with us. We met defeat at Chicago simply because we had not concentrated our energies upon abolition of a false and unjust basis of representation; but the basis can and will be overturned and another system for the nomination of presidential candidates will be substituted before another presidential nomination is made."

## EARN \$1,500 WHEN HE BETRAYS A FUGITIVE

DENVER, July 5.—H. H. Scott of Marysville, Cal., a bricklayer, today earned a \$1,500 reward, turning detective and bringing about the arrest of Edgar Maloney, said to have had many aliases and said to be an escaped convict. Maloney or Carney, as it is said he was known in Marshall county, escaped from the Kansas penitentiary while under a 10-year sentence, according to Scott, for robbing the state banks at Marysville and Battle, Kan., last fall.

Maloney was a friend of Scott's brother and recently he wrote a letter to the brother. Scott's brother had died some time ago in Galveston and Scott opened the letter. Scott immediately decided to earn the \$1,500 and came to Denver, where he found Maloney. Introduced himself and told of his brother's death. He and Maloney became close associates and last night Scott invited Maloney to share his room with him at a local hotel. Maloney agreed and early today Scott slipped out of his room for the police and when officers arrived, both men were arrested. Scott proved his identity.

Authorities at Marysville have been notified and officers are on their way to Denver.

## VIOLATORS NEUTRALITY LAWS SENT TO PRISON

LOS ANGELES, July 5.—Ricardo Flores Magon, Enrique Magon, Librado Rivera and Anselmo Figueroa, the four leaders of the Mexican insurrection, convicted of violating the neutrality laws, started late last night in charge of United States marshals for McNeal's island prison to begin serving their sentences, of one year and 11 months each.

The departure of the men was quiet, despite many rumors that an attempt would be made to rescue them.

## Girl Forgets Hurt Man Did Her in Effort to Save Him From Prison

DENVER, July 5.—The plea of a young girl who went to the home of Federal Judge Robert E. Lewis last night, and begged for mercy for her sweetheart, may save Theodore Miller, 32 years old, from serving a 15-month sentence in the Leavenworth, Kan., prison. Miller was sentenced in the United States district court Wednesday.

Miller brought his sentence largely upon himself by informing the judge that he and the girl, Miss May Wilson, 1217 Downing street, had been living together for some months, but the girl forgot the blot which the man's plea drew upon her good name.

Falling on her knees before the judge, she told of her sweetheart's kindness to her during their life together. "If you send him away to prison, Judge," she pleaded, "there will be no one to care for me. He's all I've got. He has been what a mother and father could have been to me. If he has done wrong, I beg you to be generous. If you send him away you will destroy the best there is in him and the best there is in me."

As she spoke, tears rolled down the girl's cheeks. The heart of Judge Lewis was touched. And while he would make the girl no definite promise, she left believing he would take Miller's case under consideration.

If the man is freed, the girl will have brought about what a trio of skilled attorneys and a not-unsuccessful plea by the prisoner himself failed to do.

Miller was convicted of obtaining goods from a Greeley merchant while posing as Dennis O'Brien, a postoffice inspector. Until a year ago, he and Miss Wilson lived in Milwaukee, where Miller worked as a shoe salesman. Unless the plea of his sweetheart is successful, Miller will leave for Leavenworth Saturday morning.

## POSSE KILLS BANDIT WHO SHOT AND ROBBED CASHIER

Lone Robber, After Daring Holdup, Turns and Fires on Pursuers and Bullet Passes Through Heart

MOUNT PLEASANT, Ia., July 5.—F. W. Hileman, cashier of the Rome Savings bank at Rome, near here, was held up, robbed and shot by a lone bandit this afternoon while people in the streets were unaware of what was going on. The robber grabbed all the cash in sight, about \$800, jumped into a carriage and escaped. Hileman's wounds are not serious.

Tonight the bandit was shot and killed by a member of a party that had been scouting the country in motor cars for several hours in search of him. The bandit, who was identified as Charles Clark, and who was scarcely 20 years old, was overtaken several miles south of here. He was riding a horse and on seeing the approaching automobiles, turned in his saddle and opened fire. In an exchange of shots James O. Laughlin, a leader of the posse, was slightly wounded, and the robber tumbled from his horse, shot through the heart. The stolen money was recovered.

## ERNEST DID NOT LEAVE VERY MUCH TO HEIRS

Most of Property Was Distributed Among Members of His Family Two Years Ago

DENVER, July 5.—Finis P. Ernest, who it is estimated by his lawyers, was worth at least \$500,000 just before he died, did not leave much to his heirs, because of his transference of the bulk of his property before death.

The amount left to his beneficiaries, it is believed, will amount to the hundreds of thousands, but most of his property was distributed soon after his first stroke of paralysis, two years ago, among members of his family. Half of the estate went to his wife and the remainder to his nine children. No bequests of any considerable size were made outside his immediate family. Mr. Ernest accumulated his first money in the cattle and mining districts of this state and the rest of it in Denver and St. Louis real estate. Most of his holdings in this city were disposed of before his death, but the estate still owns a large number of lots in the suburbs of St. Louis.

In accordance with the French minister of war's settled policy of reviving the military spirit in the ranks of the army as well as among the general public, the traditional "Revolution" and "Eighty-four" bugle calls, which were abolished a few years ago, have been

## Girl Disappears After Mother Had Scolded Her

RYAN, Mrs. Elizabeth Nichols, Mrs. Florence Craker, Mrs. Virginia Lehman, Mrs. Stella Hamlin, Arnold S. Ernest, John W. Ernest and Finis P. Ernest, Jr.

DENVER, July 5.—A thrilling misadventure, a mother's chiding promise of punishment when the father returned at night—and William Parker, 13 years old, pretty and accomplished, left her home, 4120 Jason street, Sunday afternoon, and has not returned. Since sleepless nights have been the portion of the distracted mother and almost broken-hearted father, E. M. Barker, an inspector for the Burlington railroad.

A ray of hope came to the Parker home yesterday when Daniel O'Hallihan, a section hand, reported seeing the girl Wednesday morning. He found her lying in a clump of weeds by the S. & W. switch tracks near Utah Junction. She was almost too weak to stand, her cheeks were bright with the flush of fever. She begged weakly for a drink of water and he gave it to her from the section men's bucket. She said she had eaten nothing since Sunday morning.

O'Hallihan offered to escort the sick girl to her home. She walked with him two miles and then, pointing to a house at the side of the road, said: "There is my home. Thank you for bringing me here. You need go no further."

O'Hallihan believed her. He told her good-bye and went to his home. The section man's wife, when she heard his story, went to the house and inquired for the girl. She had not been there. No one in the neighborhood had seen her.

O'Hallihan carried the news to the Parker home. A searching party was organized. It traced the girl to the Argo brick yards. She had been seen in the vicinity. From there in the wet earth they followed the imprint of her shoes to a house, where a number of Italians live. They had seen her. "She passed here," they said. "She went that way," and they pointed to the south.

## KILLS SISTER-IN-LAW

DAWSON, Y. T., July 5.—Eugene Vaglio, aged 45, today killed his brother-in-law, John Vaglio, proprietor of the Central hotel, his brother's wife and their two children. Rosa, aged 18, and Christina, aged 9, and then committed suicide.

**PARKER'S**  
HAIR DRESSING  
50c and \$1.00 at drug stores.

**DUPLICATE OF**

(Continued From Page One)  
topped soon after tearing through the  
passenger train, turning half way  
round and fell over on its side. En-  
gineer McCaughy was scalded to  
death, while his fireman, George  
Hers, jumped, only to fall on the track  
and meet death under the wheels. En-  
gineer Smith P. Beatty of the second  
engine jumped and sustained a broken  
leg. His fireman, John Ankney, fell  
beneath a car. His legs were severed  
and he died en route to a hospital.

**Special Train for Injured.**  
Engineer Dunlap of the passenger  
train and his fireman remained at their  
posts and escaped with slight injuries.  
A pathetic feature of the wreck was  
the injury of Miss Esther M. Matthews,  
nurse, and the death of two and the  
injury of four children who were taking  
the woods near Wilpen for an after-  
noon's outing.

The Pennsylvania railroad, of which  
Ligonier road is a branch, sent a  
special train from Pittsburgh to Latrobe  
to take some of the injured from the  
wrecked hospital here to Pittsburgh.  
But one person on the train escaped  
without injury. He was a railroad  
employee.

**Investigation Necessary.**  
It will take an investigation to de-  
termine the reason of the wreck. To-  
day there seems no person in a posi-  
tion even to suggest a cause. Almost  
every home in Ligonier was affected  
by the accident, many relatives, or  
kinds either being dead or injured.  
The railroad is an outlet for the mines  
of the Wilpen Coal company.

The passenger train, wrecked today  
was the only one in operation. It made  
a trip a day over the line which  
is 10 miles in length. Up to today  
a life had been lost in any manner.  
It was made the boast of the  
fictitious.

**MASTER OF LATE RAILROAD**  
**MAGNATE WEDS INVENTOR**

CHATHAM, N. Y., July 5.—Miss  
Mary Hawley, who inherited \$3,000,000  
from her brother, the railroad finan-  
cier, was married to Ernest N. Ogden,  
artist and inventor, of this  
city, in the parsonage of the Metho-  
dist Episcopal church last night by the  
Rev. R. T. Root. The wedding was the  
imagination of a courtship extending  
for more than 20 years.

Miss Hawley and Mr. Ogden are each  
early 50 years old and were school-  
mates and playmates. Both are artists.  
He is the inventor of a process for  
transferring pictures to glass. He is  
putting to bed wealthy. Miss Hawley  
has been a Sunday school teacher at  
the Reformed church, where Mr. Ogden  
is organist.

Saturday only.

TELEPHONES 294-295.

## SUSPECTS FRAUD IN NAMES ON PETITIONS

DENVER, July 5.—Secretary of State  
James B. Pearce is suspicious that a  
large number of names on three peti-  
tions for laws to be acted upon by the  
people under the initiative at the fall  
election are false. On some sheets the  
signatures appear to be all in the same  
hand writing, on others the handwriting  
is alternated as if by four persons.  
The three petitions are the only ones  
which have been closely examined so  
far and the investigation of them has  
not been completed. The secretary does  
not yet know whether there is enough  
suspicious names to invalidate the pro-  
posed laws. If the signatures should  
prove fraudulent.

The measures involved are: The  
headless ballot petition, the petition for  
a public utilities commission and public  
utilities court, fathered by the Direct  
Legislation league, and the petition for  
a search and seizure law proposed by  
the state antisaloon league.

Circulators were paid two cents a  
name for each name they secured and  
on some of the suspected sheets the  
amount of their earnings is tabulated.

The law holds that oath by the cir-  
culator is bona fide evidence of a signa-  
ture's validity. Secretary Pearce has  
asked the attorney general's opinion  
as to what he may do.

The greater part of the suspected  
names are given for Denver residents.  
A large number of their names are not  
in the directory.

Secretary Pearce thinks that under  
the law he is required to submit the  
petitions unless prevented by suit  
brought against him.

## REBEL TROOPS

(Continued From Page One)

at any time. Mexican government of-  
ficials here also say there is no cause  
for alarm as they do not intend to dis-  
lodge the rebels from Juarez, preferring  
to crush the revolution by mobilizing  
big forces to engage the rebels when  
they gather at the gates of the state  
of Sonora.

Scores of rebel soldiers deserted to  
American soil during the day. They  
declared disaffection between General  
Orozco and his staff and lack of money  
or food is rapidly decimating the rebel  
army.

## REBEL TROOPS LEAVE CASAS GRANDES.

AGUA PRIETA, Sonora, Mexico,  
July 5.—Advices received here tonight  
that 1,500 rebels had left Casas Grandes,  
marching toward the Sonora state line.  
General Sandness, the federal commander,  
announced that he had abandoned  
his plan for an attack on Juarez and  
would distribute his forces now in de-  
fense of the mountain passes leading  
into Sonora until General Huerta can  
bring his government forces up from  
the south for a general attack on the  
rebels.

## WINGED PARISIAN FLIES NEARLY TWELVE FEET

PARIS, July 5.—Gabriel Poulain to-  
day won a prize of \$200 in "Aviation"  
competition. The conditions of the  
contest were that a man should fly one  
meter at a height of 10 centimeters by  
supplying his own motive energy.  
Poulain made a flight of three meters  
60 centimeters (approximately 11 feet 10  
inches).

## AIRMAN WITH PASSENGER GOES 77 MILES AN HOUR

COMPIEGNE, France, July 5.—M.  
Legagneux, the French aviator, today  
broke the world's speed record for an  
aeroplane carrying one passenger. The  
machine traveled 124 kilometers (77  
miles) in one hour.

## HANFORD PROBES IN OPEN CONFLICT

SEATTLE, Wash., July 5.—The ma-  
jority of the house judiciary subcom-  
mittee—Representatives James M.  
Graham of Illinois and Walter I. Mc-  
Coy of New Jersey—came into open  
conflict today with the minority mem-  
ber, Representative Edwin Higgins of  
Connecticut, over the manner of con-  
ducting the inquiry into the conduct  
of United States Judge Cornelius H.  
Hanford.

McCoy told of rumors that evidence  
was being suppressed and witnesses  
intimidated. Chairman Graham an-  
nounced that the committee was seek-  
ing "incriminating" evidence.

The disagreement has been noted  
from the opening day, but today Chair-  
man Graham referred to himself and  
McCoy as the majority and took occa-  
sion to state vigorously that the ma-  
jority would rule.

Charles F. Peterson, a timber and  
coal land dealer, was called to the  
stand and testified that he had seen  
Judge Hanford under the influence of  
liquor. One night, about three months  
ago, he said, he had gone into a bar-  
room on First avenue and had seen  
Judge Hanford leaning on the bar in  
an intoxicated condition, with his left  
arm on the bar and a glass in front  
of him. On a later occasion, witness  
testified, he had seen Judge Hanford  
leaning on the bar of a second avenue  
saloon at 11 o'clock at night, with both  
arms on the bar. "There is no question  
in my mind that the man was very  
drunk," said the witness. Two months  
ago, witness testified, in a Third ave-  
nue barroom, he had seen Judge Han-  
ford at 5 o'clock in the afternoon,  
leaning on the bar, drunk.

Minority Member Angry.

Here Hanford's counsel cross-  
examined witness concerning his moti-  
ve in appearing, and Representative  
McCoy asked leave to state that wit-  
ness appeared as a result of a confer-  
ence with him (McCoy) and Chairman  
Graham. Representative Higgins  
wished it to be noted that he was not  
a party to the conference. He spoke  
with anger. McCoy explained that  
Higgins was in Tacoma, else he should  
have been consulted. In answer to  
McCoy's question, Peterson described  
the conference.

Peterson said he had begged that  
he be not brought into the case; that  
his business probably would be af-  
fected.

Witness replied affirmatively to  
questions of McCoy that he had been  
told at the conference by McCoy that  
the "lawyers of the city were appar-  
ently afraid to go ahead and say any-  
thing" regarding Judge Hanford, and  
"that there ought to be some people  
in Seattle who should have the courage  
to come forth to testify."

Here Mr. Higgins made a statement  
from the record that he was not pre-  
sent when this conversation occurred.

Chairman Graham requested the  
newspapers to print the committee's  
request that anyone having material  
evidence should present it, so that  
when the committee left Seattle, it  
could not be said that an opportunity  
had not been given for such testimony.

Mr. Higgins protested against the  
issuance of this invitation.

Counsel Hughes, for Judge Hanford,  
protested against McCoy's questions  
remaining in the record, saying that  
they were a reflection on the people  
of Seattle. Mr. Graham, after refer-  
ring to the difficulty of obtaining evi-  
dence, said that the inquiry had been  
misunderstood. The subcommittee had  
come to seek incriminating evidence,  
he said, and if enough incriminating  
evidence were found, to recommend  
impeachment of Judge Hanford.

Several eminent jurists and lawyers  
testified strongly in favor of Judge  
Hanford, saying they had never known  
him to be apparently intoxicated, and  
had never seen him inattentive in  
court, although his peculiarities might  
make persons who did not know him  
think he was asleep.

## CONGRESSMAN DIES SUDDENLY

NEW YORK, July 5.—George R.  
Malby, congressman from the Twenty-  
sixth congressional district of New  
York state, was found dead tonight in  
a room which he engaged last night at  
the Murray Hill hotel. According to  
the coroner's physician, death was due  
to heart trouble and hardening of the  
arteries. Congressman Malby's home  
was in Ogdensburg, N. Y. He was 54  
years of age.

## DENVER PROGRESSIVES AWAIT NATIONAL CALL

DENVER, July 5.—The call of the  
Denver Progressive Republicans for a  
state convention will not be issued un-  
til the call for a national convention  
is issued at New York. E. P. Costigan  
stated today.

## LOS ANGELES MAY CEASE TO HAVE FREE LUNCHES

W. C. T. U. Starts Agitation to Have  
Old Custom Abandoned—Saloon  
Men Fighting For It

LOS ANGELES, July 5.—Members of  
the W. C. T. U. and a delegation of  
saloon keepers appeared before the  
city council today to argue for and  
against a proposed ordinance to pro-  
hibit free lunches.

The W. C. T. U. took the ground  
that the elimination of the free lunch  
would advance the cause of temper-  
ance. The saloon men, on the other  
hand, asserted that the free lunch is  
a valuable aid to temperance.

"Many men go to saloons at noon  
to get lunch, and, of course, they must  
drink," said the leader of the W. C.  
T. U.

"Yes, and after a man eats he drinks  
less than he did before," replied the  
spokesman for the saloon men. "A  
man always gets drunk quicker and  
wants to drink more when his stomach  
is empty."

Another fact you seem to have  
overlooked," continued the saloon man,  
"is that free lunches prevent many  
crimes. A man, down and out, hungry  
and desperate, will go to a saloon and  
get a free lunch, satisfy his hunger, and  
with this satisfaction, disappears all  
incentive for going out and holding up  
someone, which, in many cases, results  
in murder."

The council delayed action for a  
week, to investigate further.

## SENATOR DEFENDS ANDREW

Lodge Declared Secretary MacVeagh's  
Statement That Assistant Was  
Inefficient Is Absurd

WASHINGTON, July 5.—Senator  
Lodge today vigorously dissented from  
Secretary MacVeagh's statement that  
his former assistant in the treasury  
department, A. Platt Andrew, was  
asked to resign because he was ineffi-  
cient.

"The statement of Mr. MacVeagh  
that A. Platt Andrew was inefficient  
is absurd," was Senator Lodge's com-  
ment. "I knew of him as a professor  
at Harvard, and President Eliot re-  
commended him to the national mon-  
etary commission as a trained political  
economist and linguist. When he was  
director of the mint I knew he was  
considered an efficient administrator,  
and I am told that during the year he  
held the office he saved the govern-  
ment \$250,000 through reforms."

## BUBONIC PLAGUE IS REPORTED IN HAVANA

WASHINGTON, July 5.—Reports  
that bubonic plague had appeared in  
Havana are causing serious concern.  
Juan Guiteras, head of the Cuban de-  
partment of health, today cabled Sur-  
geon General Blue of the public health  
and marine service that it had not  
been determined whether the suspected  
cases were bubonic plague. The United  
States will adopt protective meas-  
ures if the disease turns out to be the  
plague. The plague situation in Porto  
Rico is improving. No new cases have  
been reported for four days.

## EQUAL SUFFRAGE

(Continued From Page One)

of defective children; bill for bet-  
terment of immigrant men and women;  
plan to have women police in all larger  
cities; opposition to prison contract la-  
bor; study of Bible literature, by li-  
terary clubs; furtherance of high ideals  
in the drama and on the professional  
stage; workingmen's compensation; and  
federal aid for vocational training for  
boys and girls; indorsement of the  
plans for medical inspection in schools,  
for school nurses, and for out-of-door  
schools; demand that the president of  
the United States reorganize the de-  
partment of agriculture so that the  
pure food and drug acts be better en-  
forced and "the law not be prostituted  
for special interests." Indorsement of  
the "white slave" laws, and protesting  
against the light sentences meted  
out to convicted offenders; protest  
against the comic supplements of the  
Sunday papers; protest against impos-  
ing any legal disability on women that  
is not imposed on men; indorsement  
of uniform marriage and divorce laws;  
favoring the appointment by the Na-  
tional Education association of a  
committee to outline a course of study  
of sex hygiene, to be taught in all nor-  
mal schools, favoring women inspectors  
for immigrants at all ports of land-  
ing.

DEPOT, WOULD THE  
VIADUCT?

**LA FOLLETTE WANTS TO  
KNOW HOW MUCH T. R. SPENT**

MADISON, Wis., July 5.—United  
States Senator La Follette, in a printed  
statement today, asks Colonel Roose-  
velt for the second time to publish his  
expense account, or else, "a candid  
statement of his reasons for thus  
spurning one of the basic principles of  
public morality and political decency."  
When La Follette made public a state-  
ment of his campaign receipts during  
the Ohio primary contest, he called  
upon Roosevelt to do likewise. There  
has been no response.

La Follette says in part:  
"His business with big money de-  
rived from unfair privileges, is ever in  
politics and is ever ready to place its  
funds back of a likely winner who  
all time."

## Fight in Panama in Which Americans Took Part May Be Serious

WASHINGTON, July 5.—Officials  
here suspect that what was at first  
believed to be nothing more than one  
of the common rows peculiar to the  
"redlight" district in Panama may  
actually have a very serious founda-  
tion and be connected in a way with  
the political situation.

Adherents of the Porras cause have  
insisted that the Panama police were  
bitterly hostile to all Americans and  
resentful to the presence of American  
commissioners at the recent election  
to insure fair dealing. It has been al-  
leged that American sailors have un-  
iformly been treated with the greatest  
barbarism by the police.

It is recalled that a year ago one  
American bluejacket was deliberately  
murdered and several others severely  
injured by the police for which the  
Panama government was obliged to  
pay an indemnity.

With reports now due from the  
American legation at Panama, and the  
commanding officer of marines, offi-  
cials here expect to be in possession  
of all the facts necessary for their  
guidance within a day or two.

The elections just held though purely  
municipal have resulted in a demon-  
stration of such overwhelming support  
of the Porras candidate as to forecast  
defeat of the Arosemena party at the  
national election on July 14.

It is believed the government strongly  
will resist being dispossessed by the  
Porras party and it was reported from  
Panama that Arosemena was sending  
his brother, Carlos, post-haste to  
Washington to protest against Ameri-  
can supervision which Arosemena as-  
serts prevented the fair election it was  
intended to insure.

Major Smedley D. Butler, command-  
ing the marines, at Camp Elliott,  
Panama City, has reported that eight  
soldiers of the Tenth Infantry, two  
marines and one civilian were seriously  
wounded in the fight. He reports two  
of the infantrymen will die.

Major General Wood, chief of staff,  
has sent a telegram to the commander  
of the Tenth Infantry requesting a full  
report on the incident immediately.

## LA FOLLETTE WANTS TO KNOW HOW MUCH T. R. SPENT

MADISON, Wis., July 5.—United  
States Senator La Follette, in a printed  
statement today, asks Colonel Roose-  
velt for the second time to publish his  
expense account, or else, "a candid  
statement of his reasons for thus  
spurning one of the basic principles of  
public morality and political decency."  
When La Follette made public a state-  
ment of his campaign receipts during  
the Ohio primary contest, he called  
upon Roosevelt to do likewise. There  
has been no response.

La Follette says in part:  
"His business with big money de-  
rived from unfair privileges, is ever in  
politics and is ever ready to place its  
funds back of a likely winner who  
all time."

either is subservient, in the sense that  
a chief is subservient to the hand of  
the carpenter or servicable to the  
extent that he is "harshness" in per-  
formance.

"Special privilege puts money into  
political campaigns by way of invest-  
ment. For such investments it de-  
mands substantial rewards. It is to  
protect the public interest from in-  
ward such as these, concealed in (twi-  
ght and consummated in secret, that  
the people demand publicity of cam-  
paign contributions."

Theodore Roosevelt entered the  
contest for the presidential nomination  
as a progressive. He made a strenu-  
ous campaign for votes and a noisy  
scramble for southern delegates, on the  
ground that he represented progressive  
doctrines. In this fight he had the  
backing of the "steel trust" and the  
"harvester trust."

"Financial giants like Perkins, Hanna  
and Murney contributed to his cause.  
He was characterized by a ruthless ex-  
penditure of money. Yet he has up-  
no public accounting. He has not

taken the American people into his  
confidence. He has ignored the pro-  
gressive principle of publicity."

## UTAH FIGHTER LOSES

LEADVILLE, July 5.—Vic Hanson  
of California knocked out Joe Clark  
of Salt Lake in a round and a half to  
night. The Utah boy was knocked  
down three times in the first round.  
Hanson clearly outclassing him in every  
point of the game.

Hanson will fight Howard Baker of  
Boulder in Salt Lake on July 15.

According to a German contem-  
porary, there are at the present about  
7,000 rabbits in Berlin, of which about  
2,000, or 28 1/2 per cent, are mechanically  
driven. Of these about 14 per cent are  
operated electrically.

Even Mr. Edison pronounces the re-  
cent achievements in wireless wonder-  
ful. "They are wonderful. They are al-  
most as wonderful," suggests the Har-  
vard Times, "as boiling a little water  
and making it move a ship used to be."

## WINNERS AT CARPENTERS PICNIC ARE ANNOUNCED

Twenty athletic events were held at the Carpenters annual picnic at Stratton park Thursday and great interest and keen rivalry were shown. The results were as follows:

Boys' potato race—Harold Lofquist, won, Carl Ashles, second, Jack Barney, third.

Girls' potato race—Helen Prantz won, Nellie Mitchell, second, Margaret Gorsline third.

Standing broad jump—Ray Russell, won, Abe Herron second, C. L. Mahoney third.

## WILL REDEEM \$5,000 IN SCHOOL BONDS AUGUST 1

The school board met in regular session last night and elected three new teachers as follows: Miss Agnes Pace, Miss Emma Phillips and Miss Alter. They will be assigned to grades later.

The board decided to call in five school bonds of \$1,000 each, on August 1 and the call was ordered issued. A large number of bids were allowed, and contracts were let on supplies for the coming school year. Matters of routine business occupied the remainder of the meeting.

## ELKS LEAVE FOR COAST

The Colorado Elks special passed through Colorado Springs last night and took on the local delegation, among the prominent Elks who will represent Colorado Springs Lodge No. 309, are included Past Exalted Ruler S. H. Kinsley, M. G. Wicklund and W. H. McIntyre. The train, which is being run by the Rio Grande, is one of the finest equipped specials that road has ever put out. The convention in Portland begins Monday and the special train will arrive in time for the morning session.

## Colorado City DEPARTMENT

An initiation and installation will be held at the regular meeting of Ute council No. 10, Degree of Pocahontas, this evening. All members are requested to be present. Refreshments will be served.

A celebration of the Fourth by getting drunk brought fines of \$5 and costs to five men, in police court, yesterday morning. A colored man, S. P. Hicks, was fined \$10 for having an open pocket knife up his sleeve when he quarreled over the results at Las Vegas.

James R. Gregory has become manager of the Cliff Dwellers Ruins at Manitou.

There were two Fourth of July births in Colorado City. A son was born to Mr. and Mrs. C. A. Brimmer, 313 Monroe avenue and a daughter to Mr. and Mrs. Carl Esch, 485 North Fourth street.

Frank Blinn has returned from California where he has been for more than a year.

The fishing trip which H. L. DeWess and a party took to Turkey creek was wholly successful.

The Rev. G. Clifford Cross spent yesterday in Cripple Creek to make arrangements in regard to the Baptist summer assembly.

The body of Mrs. Mary P. Young, who died Wednesday, at 727 Colorado avenue, was taken to Joplin, Mo., yesterday, for burial.

Tony Cowshay, an Austrian, emerged, Thursday, from a dispute with his landlady, over his board bill, bleeding from half a dozen wounds in his head. The landlady was Frances Jenich, 215 Grand avenue, also an Austrian. Constable Kinsey cared for Cowshay that night and yesterday morning the boarder lodged a charge of assault against his landlady in Justice Paulson's court.

Ed Olsen was convicted of disturbance yesterday afternoon in Justice Brann's court and sentenced to 60 days in the county jail.

The Homeowners will give a card party at 1221 P. hall Friday, July 13, 12 P. M. and friends are invited to attend.

## News of Local Courts

In a futile attempt to burglarize the home of Frank L. Scott, 632 North Nevada avenue early yesterday morning thieves smashed two strongly bolted doors. They were unable to get further than the refrigerator room and since a thing was taken the police have no clue to follow and the matter probably will be dropped.

Paul Long has been arrested in Pueblo on request of the local police on a charge of stealing a car. An officer will go there this morning to bring him back.

In police court yesterday morning J. Harper a selector for the Rex rooming house was fined \$2.50 for soliciting on station platform.

Everett Felts, the first man arrested this Fourth of July here, was yesterday fined \$50 in police court for carrying a gun.

Two plain clothes officers are detaining their whole time in running down people who ride on the side walks. Chief Burns has ordered a strict enforcement of the ordinance and two

or three offenders are brought in every day. Each violator is arrested before-hand at a fine. Carl St. John was fined \$5 yesterday morning for riding his motor cycle on the sidewalk.

Six men were fined varying amounts in police court yesterday morning for drunkenness as follows: Bob Marshall, \$4; Otto Hayes, \$3; Harry Winney, \$5; H. L. H. \$2; William Smith, \$2 and O. P. P. \$2.

N. O. Conger has filed suit in the county court for divorce from Hattie M. Conger, charging desertion. The couple were married at Little Rock, Ark. July 11, 1908.

L. J. May Green has filed suit in the district court for divorce from George P. Green on the ground of adultery. She asks to resume her maiden name of L. J. May Welch. The couple were married in Cheyenne, Wyo. June 23, 1908.

The city of Colorado City has filed condemnation proceedings in the district court against property owners in block 185 in Love & Quinn's addition to Colorado City. The purpose is to open an alley between Colorado avenue and Washington avenue, running west from Ninth street.

## Personal Mention

Mr. and Mrs. Jesse H. Waters are spending a two weeks vacation in Yellowstone park.

Mrs. F. H. Dunnington and son have returned after a four months' visit in southern California.

Mrs. Frederick Pope of Fullerton, Wash. arrived in Colorado Springs yesterday to visit friends and relatives.

H. M. Troth of Denver arrived yesterday to spend two or three days here with friends and looking after his interests.

Arthur Goings is expected home today from Las Vegas, where he went to see the Johnson-Flinn fight, making the drive in an auto.

John J. Craton, traveling passenger agent for the U. P., O. S. L. and O. W. R. R. & N. is an arrival from Denver, to be in the Pikes Peak region a few days.

Philip Grayson, who has been in St. Francis hospital for a month, where he was operated on for appendicitis, is again at his home, 109 East Cheyenne road.

Grant Pauley of Muskogee, Okla., formerly local agent for the Colorado Midland, passed through this city Thursday on his way to the Elks convention in Portland.

James Stewart of West Kiowa has returned from California practically recovered from injuries received in an accident on the Short Line two months ago. He is an engineer on that road.

Mrs. W. S. Dunnington who underwent an operation in Chicago this week is doing nicely. The operation which was intended to relieve knee trouble resulting from an old accident, is believed to have been a complete success.

The Rev. Carl Walcott pastor of the Swedish Evangelical Lutheran church, returned yesterday from a trip to Chicago and Kansas. The regular services will be conducted in the church tomorrow.

C. M. Cole, superintendent of schools left Thursday night for Chicago to attend the annual meeting of the National Educational Association. He will be out of the city for about two weeks.

Mr. and Mrs. J. C. Coulson with their daughter Edna are visiting their son in George C. Coulson, 2145 North 12th street. Mr. Coulson is publisher of the La Harrier at La Harre, Ill.

He and his daughter will go to Salt Lake City and Ogden next week.

Mr. and Mrs. A. T. Wolter and little son of Cheyenne, Wyo. are visiting Mrs. Wolter's sister, Mrs. R. L. West at the Barton apartments.

Mrs. T. E. Linn left Wednesday night for Los Angeles, Cal. with her children. She will join her husband in that city and expects to make her permanent home there. Mrs. Linn is a daughter of Justice and Mrs. William H. Gowdy.

For soreness of the muscles whether induced by violent exercise or injury there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

## Deaths and Funerals

The funeral of Miss Maude L. Meeker will be held at 2 o'clock this afternoon from the residence, 818 East San Miguel street. The Rev. W. E. Bennett will officiate. Interment will be in Evergreen cemetery.

The funeral of Floyd W. Paige, who died Thursday evening will be held at 2:30 o'clock this afternoon from the undertaking rooms of Hallett & Baker. The Rev. David Mortert will officiate and interment will be in Evergreen cemetery. Paige was 24 years old, graduated from Colorado Springs High school in 1909. His death resulted from injuries received when he was caught in a hay press at Wigan.

## WAKE UP—COLORADO SPRINGS PEOPLE

You Have a Grand Bargain Event to Come Off Today at the Polant Store, 119 S. Tejon St.

The St. Louis Salvage Co. is noted for its rapid transit bargain distribution. When a stock falls into their hands, the Polant store is new and up to date, and contains the many vacation togs and accessories so much needed and wanted by ladies during the midsummer days. **Eight Children, 14 Grandchildren See Widower Wed**

C. F. Weller of Omaha, Neb., and his bride, formerly Mrs. Jennie A. Whittlessey of Hartford, Conn., who were married last Saturday at Council Bluffs, Ia., are spending their honeymoon in the El Paso Hotel, being at present registered at the Cliff House, Manitou. Mr. Weller is president of the Richardson Drug Co. of Omaha, and is one of the foremost citizens of that place, while Mrs. Weller comes from one of the oldest and most exclusive families in New England, and holds a prominent position in musical and literary circles. Each has been married before. Mr. Weller being the proud father of eight children and grandfather of 14. His present wife, who has been a widow for 16 years, has no children. The wedding was the culmination of a romance which started a year ago when the two were members of a party making a trip around the world. The ceremony was attended by all the groom's children and grandchildren.

Mr. Weller has been a frequent visitor at Colorado Springs in the past, numbering among his intimate friends the late General Palmer in whose regiment he served during the Civil war; Major McAllister, F. H. Arcularius and others. The couple will remain here about 10 days more, after which they will go to Mr. Weller's summer home at Platte Canon.

They were entertained at dinner at the Elks club fourth of July by Mr. and Mrs. F. H. Arcularius.

**TAKE NO RISK**

Use pure ice made from distilled water by the El Paso Ice and Coal Co.

**425 MEN, 195 WOMEN, GIVEN WORK IN JUNE AT THE FREE BUREAU**

The report of the Colorado Springs branch of the state free employment bureau, just issued by Superintendent W. C. Daily, shows that during June 425 men and 195 women were sent out on all classes of work. The record for May, owing to the beginning of the paving work, was slightly greater than this, and 622 men and 294 women were sent out. The bureau is attracting a great deal of attention in its way, and many visitors to the state are surprised at the idea of a free employment office. It is proving a great convenience, in that a great deal of labor is furnished without cost, either to the employers or the employees. The ranchmen have found it a boon, and orders for help are coming in from a strip of territory stretching from Castle Rock nearly to Pueblo.

A large correspondence is kept up with people all over the state who are seeking work. In fact, the office covers the entire western country with its communication with people who plan coming here. They are given information before coming, and assistance after reaching here. Formerly this correspondence had to be handled by the secretary of the Chamber of Commerce.

The office rarely has to deal with mechanics, as they are looked after by their own crafts. But many other requests for employees have been coming in constantly. The Kansas fields have been taking numbers of men lately, and some have gone to the fruit growers on the western slope. The big demand for men on the western slope will begin soon after August 1, when there will be a call for fruit pickers and packers. One district already has written to say that it will want 300 men after that date.

About 450,000 Japanese will be examined for army service this year, an increase of 40,000 over last year's conscription. An improvement in physique is expected in this year's recruits.

**RESTORE GRAY HAIR TO NATURAL COLOR**

The old idea of using Sage for darkening the hair is again coming in vogue. Our grandmothers had dark, glossy hair at seventy-five, while our mothers are gray before they are fifty. Our grandmothers kept their hair soft and glossy with a "Sage Tea," which also restored the natural color.

One objection to using such a preparation was the trouble of making it. This objection has been overcome by the Wyeth Chemical Company of New York, who has placed on the market a superior preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and thin, weak, falling hair.

The beauty of the hair depends more on its richness, even shading than anything else. Don't have dry, harsh, faded hair, when a simple, harmless remedy will bring back the color in a few days; an don't be tormented with dandruff, itching scalp and loose, falling hairs. Wyeth's Sage and Sulphur Hair Remedy will quickly correct these troubles, and give color, strength and beauty to your hair.

Get a fifty-cent bottle from your druggist and prove this to your own satisfaction. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents, The Robinson Drug Co.

**COURSES IN ARCHAEOLOGY. COMPOSE SECOND PART OF COLLEGE SUMMER SCHOOL**

The second part of the work of the Colorado college summer school will begin Monday, July 8, with the courses in the department of archaeology, which are under the direction of the Archaeological Institute of America. All courses will be held in room 3, Palmer hall, and next Monday they are all open to the public. Lectures throughout the term of four weeks will be given each Monday, Tuesday, Thursday and Friday, with a conference period in each course once a week.

The faculty of the archaeological department are all strong men in their subjects. Professor Carroll, who lectures on Greek archaeology, is general secretary of the Archaeological Institute of America, and professor of Greek and art in George Washington University. Professor H. L. Wilson occupies the chair of Roman archaeology and epigraphy in Johns Hopkins University, and was professor of Latin language and literature in the American school of classical studies in Rome a number of years ago. Both come from the east to participate in the work of the summer school. The two lecturers on American archaeology, Dr. Hewett and J. P. Harrington, are members of the staff of the school of American archaeology in Santa Fe, and are both authorities in their subjects in this country.

A syllabus of the lectures follows:

**SYLLABUS OF LECTURES.**

**Greek Archaeology and Art, 9 a. m.**

Mitchell Carroll.

(Illustrated with the Stereopticon.)

**DEMOCRATS MEET AT COURT HOUSE MONDAY**

A general ratification and justification meeting, in honor of the nomination of Wilson and Marshall, will be held by the Democrats of the county Monday night at 8 o'clock, at the court house, in division No. 1 of the district court. Former Governor Adams of Pueblo will give the address of the evening.

**STEWART SAYS DEVINE WAS A "RUBBER STAMP" FOR THE "INTERESTS"**

A Pueblo daily, under the editorship of Thomas H. Devine, published yesterday morning a virulent attack upon the stand taken by Philip B. Stewart in reference to making the fight for Progressive principles with the Republican party. When asked if he had any statement to make concerning the attack, Mr. Stewart replied:

"Thomas H. Devine of Pueblo was a rubber stamp for the interests in charge of the loaded dice in Chicago. Unfortunately, an unkind fate dictated that our splendid state should furnish the rubbers and clove boys for that committee. Stewart and Devine acquired no special talent, even of a doubtful character, to serve the purpose of their masters. The things accomplished by them could have been accomplished by any despicable and doubtful petty larceny thief.

"The work, in its direct accomplishment, was too unclear for the 'high-ups', hence the unfortunate employment of two men from our own state, and the subsequent humiliation of those who are seeking a restoration of clean government for the people and for the state."

**Home Rule Amendment Bears 26,777 Names; Only 18,000 Required**

The petitions for the initiation of the "Home Rule" amendment to the state constitution have been checked over by the secretary of state. Only about 18,000 signatures were required to place the amendment before the voters at November, but 26,777 were sent in from over the state. The quota for Colorado Springs was 5,000, but City Clerk Chapman, who had charge of the work, sent in 5,566.

The effect of the amendment, if carried, will be to ratify the Colorado Springs charter, and all existing city charters in the state. It will allow cities under charter government the right, without question, to conduct their local elections in a nonpartisan manner.

During the summer months, parents of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time, serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

Trenton, Mo.—"About two years ago I had female trouble and inflammation so bad that I was literally helpless and had to be tended like a baby. I could not move my body or lift my foot for such severe pains that I had to scream. I was very nervous and had a weakness."

"Lydia E. Pinkham's Vegetable Compound has helped me to such an extent that I think there is no medicine like it for female troubles. I am up and able to do my work again and I give you full permission to publish my letter for the sake of other suffering women."—Mrs. W. T. Purnell, 320-10th St., Trenton, Mo.

She suffered TEN MONTHS

**Mrs. Blankenship Tells of Her Restoration to Health by Lydia E. Pinkham's Vegetable Compound.**

Elliston, Va.—"I feel it my duty to express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I was a sufferer from female troubles and had been confined in bed over one third of my time for ten months. I could not do my housework and had fainting spells so that my husband could not leave me alone for five minutes at a time."

"Now I have been restored to health and it has come from taking Lydia E. Pinkham's Vegetable Compound. Whenever I see a suffering woman I want to tell her what this medicine has done for me and I will always speak a good word for it."—Mrs. ROBERT BLANKENSHIP, Elliston, Va., Montgomery Co.

WAS HELPLESS—NOW WELL

GIVE CONCERT IN MANITOU

A 12-piece band, composed of the employees of the Willys-Overland Automobile company of Toledo, reached this city yesterday afternoon, and in the evening gave a concert at the Soda Springs park in Manitou. The band, under the direction of Gustave Koehly, is on a 5,000-mile tour of 20 states. It left Toledo June 12, and already has visited many cities in the west and middle west.

TAKES PULPIT TOMORROW

Dr. J. H. Spencer, the new pastor at the First Baptist church, will assume his duties at the regular service at 11 o'clock tomorrow morning. The successor to the Rev. J. H. Franklin comes here from an eight months' stay in Denver. He was formerly of North Adams, Mass.

FIELD MEET NEXT WEEK

The boys department of the First Methodist Sunday school will hold a field meet and picnic next Saturday afternoon, instead of today, as announced. A program of sports is slated for Washburn field, and later a picnic lunch will be held in Monument Valley park.

ACACIA HOTEL OPENS 20 NEW ROOMS TOMORROW

The Acacia hotel management tomorrow will throw open to the public 20 new guest rooms on the first floor, facing on North Tejon street. They have been remodeled from office suites and are beautifully furnished. Each room has a private bath. The hotel parlors also have been redecorated and refurnished, and a new baby grand piano has been installed.

## Chronic Ulcers Mean Bad Blood

If outside influences were responsible for chronic ulcers, then external applications and simple cleanliness would be a curative treatment. But the trouble is always in the blood, which has become unhealthy and diseased, and keeps the sore open by continually discharging into it impurities and infectious matter. Salves, washes, lotions, etc., may cause the place to scab over temporarily, but the blood is not made purer by such treatment and soon the old inflammation and discharge will return and the sore be as bad or worse than before. S. S. S. heals old sores by going down into the blood and removing the impurities and germs which are responsible for the place. S. S. S. thoroughly purifies the circulation and in this way destroys the source of every chronic ulcer. In addition S. S. S. enriches this vital fluid and assists nature in overcoming the bad effects of a chronic ulcer. Book on Sores and Ulcers and any medical advice free to all who write.

## ROOSEVELT TO ATTACK TRUST PLATFORMS OF BOTH THE OLD PARTIES

OSTER BAY, July 5.—The platform of both the Republican and Democratic parties call for rigid enforcement of the antitrust laws. They are wrong, so declared Theodore Roosevelt today.

The former president said that in his campaign he would attack both parties on this score. He intends to take the position which he outlined in his Oswego, N. Y., speech two years ago, when he said the great business enterprises of the country had come to stay and should be controlled by means of close supervision by the national government.

To attempt to abolish them, he said, was futile.

Mr. Roosevelt denied a report that he had offered the nomination for the vice presidency to Judge Ben B. Lindbergh, who have formed cooperative associations. It is his opinion that only by strong administrative control exercised through the national government could the problem be handled rightly.

As for the tariff, Colonel Roosevelt said the Democratic party had gone on record in favor of free entry of necessities of life.

"Of course the first person that such a policy would harm would be the farmer," he continued.

"The Democratic party could do only one of two things. It might wink at its tariff plank and admit that it was written for campaign purposes only or it might attempt to enforce it which would mean ruin to the country."

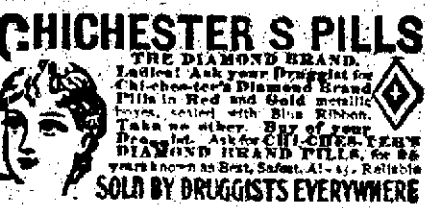

"Free trade," he said, "would be so disastrous that the country would soon go back to the principle of protection. Should free trade be adopted," he said, "it would be possible for the moneyed interests of this country to build up great industries in China and Japan and take advantage of the cheap labor there and import the products into this country to undersell domestic goods."

"I am not sure," he continued, "that the tariff is the chief factor in the high cost of living. So far as I can see, the articles which have gone up in price most are butter, eggs and meat. Butter and eggs of course are not affected by the tariff. In regard to meat, I think that it is less the tariff than the trusts which have caused high prices."

## SECRETARY MEYER IN BED

WASHINGTON, July 5.—While Secretary of the Navy, Meyer Stin is confined to his bed at Hamilton, Mass., he has so far recovered from typhoid fever that it is expected he can be removed soon to his flagship.

Spain is to have a national congress on viticulture in July at Pamplona.

## BRADSTREET TRADE REPORT

NEW YORK, July 5.—Bradstreet's tomorrow will say:

The week's developments have been mainly favorable. There is the arrival of much-needed moisture in parts of the northwest; the regaining, owing to hot, forcing weather, of some earlier ground lost by the corn and cotton crops; the continuance of exceptional activity in finished steel output; the enlargement of rail trade in some markets close to the soil; as for instance the northwest and parts of the south; and last, but not least, the expansion due to hot weather and holdsummer holiday influences, of demand at retail, which has relieved final distributors, shippers of part of their load and even induced some measure of filling in demand of jobs here. The net result of the growth is a rather optimistic feeling in general trade and industrial circles and a disposition to look more to the bright side of things.

Encouraging reports come from the iron and steel industry. The last half of 1912 opened with a noteworthy spirit of optimism, born of heavy specifications, liberal consumption, and, so far as surface indications go, a favorable reception of higher prices recently inaugurated on various finished products. Users of finished steel want deliveries because products are needed almost forthwith. The railways have again started to buy cars, the smaller roads have taken a relatively good aggregate of rails, export trade is of encouraging proportions, orders for locomotives are increasing, and there is a heavy volume of structural steel business in prospect.

Wheat, including flour, exports from the United States and Canada, for the week ending July 4 aggregate 2,933,508 bushels, against 3,187,581 last week.

Corn exports, 827,272 bushels, against 119,635 last week.

Business failures in the United States for the week ending July 4 were 170, against 250 last week.

## R. G. DUN WEEKLY REVIEW

NEW YORK, July 5.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

Business is satisfactory and, in some important lines, active, notwithstanding the usual summer slowing up and the stock taking incident to the time of the year. Moreover, prospects for business are even better than actual current conditions, and the characteristic feature of the week's reports from the leading trade and industrial centers in all sections of the country is the expanding and deepening optimism. Confidence is in a considerable degree based on the belief that nothing but a crop failure or other unforeseen calamity can now check the improvement that has set in, and it is noteworthy that nowhere is the optimism more marked than in the agricultural sections.

## WOMAN KILLS WOLF

MEERKE, Colo., July 5.—A gray wolf, as big as a yearling calf, was shot yesterday by Mrs. W. A. Betts, wife of a Denver contractor, who is visiting here.

Mrs. Betts, with friends, was hunting rabbits and shot the animal while it was on the run. Maddened, the beast turned on the hunters, but Mrs. Betts readily finished it with another shot before it had made a half-dozen leaps.

The bounty on the wolf is \$45 and the pelt may be worth \$100.

## 33 Initiated Bills to Be Placed in November Ballot

Thirty-three initiated and referred bills will go on the ballot at the general election next November. In addition to the presidential electors and the state candidates. The ballot will be a "mini-foot sheet," according to indications, and the advertising expenses of the state this year will be about \$350,000. A relief measure will have to be passed by the next legislature to settle the bill.

The measures to be initiated are as follows:

A good roads measure to take the place of house bill No. 200, which was declared unconstitutional by the supreme court. This bill turns the internal improvement funds over to the highway commission for distribution among the counties.

A mothers' compensation act to give needy mothers funds for the support of their children.

An act for the recall of the decisions of the courts.

A bill for a public utilities commission.

A bill amending the civil service laws. This bill provides that the state, city and county appointive officers shall be under civil service.

A bill for the recall of all public officers, including the judiciary.

A bill to amend the school laws and to provide for the use of school houses for public gatherings.

A bill providing for the headless ballot.

A bill to provide for the publication of referred and initiated bills by the pamphlet system.

A statewide prohibition bill.

A bill giving a special fund to the state board of immigration for the advertising of the state.

A woman's eight-hour bill which says that in the trades women shall not be required to work more than eight hours daily.

A search and seizure bill giving officers authority to search for and seize liquor in dry territory.

An eight-hour law for underground workers, also smelter, mill and coke oven employees.

A state fair bill providing that the state shall assume management of a state fair and providing for the appointment of a commission.

A bill for the establishment of a public utilities court.

A bill to provide for the bonded indebtedness in behalf of the state to an amount not exceeding \$10,000,000 to create a fund for the construction and improvement of public highways in the state.

An act to promote and encourage general prosperity in the state by constructing a tunnel through the base of James peak to be used for public or semipublic road tunnel. This is the so-called Moffat road tunnel.

A bill limiting the indebtedness any county may incur through loans.

A constitutional amendment concerning the fees and compensation of county, precinct and other officers.

A constitutional amendment providing that any person, county association or corporation engaged in the state in smelting, sampling, refining, reducing, milling or otherwise treating ores, minerals, metals, shall be regarded as engaged in a business, affected with a public interest and devoted to a public use.

A bill providing for the ratification of the state tax commission and abolishing the state board of equalization.

A bill passed by the legislature, obliging a guarantee banks must make to depositors by keeping a fixed percentage to pay deposits.

A bill providing for mining and smelting employees working only eight hours.

A bill providing for the transfer of the department of brands from the secretary of state to the state livestock inspector.

A bill providing that the state officers shall turn over their receipts to the treasurer daily instead of monthly.

A bill providing for the establishment of a summer school for teachers, its organization and appropriation.

A bill providing that ditching, claiming security in water rights, large priority of flood water over riparian owners, desiring to impound flood waters.

A teachers' bill relating to the holding of examinations for teachers and providing for the awarding of certificates and the qualification of pedagogues.

A bill providing for municipal home rule to cities over 20,000 inhabitants without express legislative enactment.

A bill providing for contempt in criminal cases, and embodying such fines, under four heads, misconduct, noise or breach of the peace, refusal to be sworn as a witness and willful avoidance of process.

A bill providing that the secretary of state shall publish initiative and referendum measures once in a Republican and Democratic paper in each county instead of four successive weeks.

The Chilean government has decided to spend \$12.75 during this year for a cooking department in some of the professional schools.

## Can't Be Separated

Some Colorado Springs People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidney are well and strong, the rest of the system is pretty sure to be in vigorous health.

Don't's Kidney Pills make strong healthy kidneys.

James W. Riley, 604 N. Spruce St., Colorado Springs, Colo., says: "I was bothered for years by kidney trouble and a bad back. I had attacks of backache and pains in my hips and often my head ached. The kidney secretions were too frequent in passage, especially at night. I used remedies and physicians' prescriptions, but never received much benefit until I took Don's Kidney Pills. They helped me from the first and it was not long before I was cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Don's—and take no other.

## Elegance and Comfort

There is sentiment in the Chest of Silver for a wedding gift, but a very healthy sentiment. The basis of housekeeping ambition, it means romance and it means comfort.

The best silver, the best patterns, both simple and elaborate, and the best taste, go into our Chests of Silver.

## The Johnson Jewelry Co.

"Reliable Jewelers"

## SALVATION ARMY MAN AT Y. M. C. A. SUNDAY

Colonel Lee, head of the Salvation Army barracks in Denver, will address the men's meeting at the Y. M. C. A. Sunday afternoon at 3:30. His subject has not been announced. Special music will be furnished by Eugene Reno of Colorado Springs.

Dysentery is always serious and often a dangerous disease but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

## \$105,000 IN DIVIDENDS BY TWO C. C. COMPANIES

Dividends totaling \$105,000 have been declared this week by two Colorado mining companies. The Vindicator Consolidated Gold Mining company declared a dividend of \$10,000 or 2 cents a share, to be paid July 15 to stockholders of record July 15 and the Portland Gold Mining company has announced a 2 cent dividend for July 20 to stockholders of record July 12. The amount is \$95,000. The Portland has changed its date of regular payment from July 15 to July 20.

## Midland Band Concert

The Midland band will give two concerts today, one in South park in the afternoon at 2 o'clock, and the other at Manitou Seda Springs park at 8 o'clock tonight. The evening concert will be featured by a descriptive selection, "Uncle Tom's Cabin."

The selections in the afternoon will be as follows:

### Afternoon, South Park.

March—"The National Anthem." Selection—"The Dollar Princess." Fall Parade—"Annie Laurie." Wheelers.

### INTERMISSION

Three Dances from "Henry VIII." "Simple As You." "The Prince of Wales." "Humoresque" (the request). Wheelers.

The program in the evening is composed as follows:

### Evening, Manitou.

March—"Merry American." Wheelers. Selection—"Bones in Toyland." Herbert. "Miner's Lullaby." Paderevski. Gavotte—"William Tell." Rossini.

### INTERMISSION

"Uncle Tom's Cabin" (descriptive). "Uncle Tom is drawing before the log fire, in the enjoyment of the quiet of his cabin in Old Kentucky, when there pass before him familiar scenes of the 'old south' and finally a vision of emancipation."

"Serenade." "Flute." H. M. Haydn. "French horn." W. Quirk. Selection—"For Frodo's sake." Wheelers. "The Mill in the Forest." Elmhurst.

## Thin Stockings That Wear

Do you want a thin, comfortable stocking that will wear as well or better than a coarse one? Then ask for our No. 717.

We ask you to compare this stocking with any other stocking of the same price. You will see, at once, the superiority of this hose, in quality of yarn, sheerness of texture, brilliancy of lustre and excellence of color.

Wear these stockings. They're thin. Yet you will be amazed at the length of time they will wear without holes.

The economical price

**25 Cents the Pair ALL COLORS.**

## TALES of the TURKISH TROPHIES

## TALE 4 - THE ROYAL MAGICIAN

"WHAT tricks are you going to do for us?" asked the Kink, when they brought before him the Royal Magician.

"A mighty stunt, your majesty," proudly answered the man of tricks. "I shall grow

from a turkey's wishbone a box of Turkish Trophies."

"And a lucky thing for you that you didn't do the trick backwards," said the Kink, as he borrowed a light from the Royal Torch Carrier.

SATURDAY, JULY 6, 1912.

## THE INITIATED MEASURES

THE time for filing initiated measures with the Secretary of State expired at midnight on July 3. In this issue of the Gazette appears the complete list of 33 initiated and referred measures which have been placed on file. If all of the signatures on the petitions attached to the various measures are those of qualified voters, if there are no duplications in a single petition, and if the signatures were properly vouched for before a notary public, all of the measures will go before the voters of Colorado this fall.

It is estimated that the cost of advertising the measures according to the provisions of the constitution will approximate \$350,000. It is also estimated that a ballot nine feet long will be required for the presidential electors, state and county officers, and the 33 initiated and referred measures.

It is evident that the burden on the electors has been made much too great by the initiation of so many bills and amendments. For instance, voters will have to pass upon two public utilities bills, both extremely technical; they will have to decide whether they favor the recall of judicial decisions, the recall of all elective officers, or neither; they will have to decide the question of statewide prohibition; they must express their opinions upon a woman's eight-hour bill, the advisability of spending \$10,000,000 for the improvement of state highways, the establishment of a summer school for teachers, a bill stating the qualifications of pedagogues, the guarantee of bank deposits, and the feasibility of transferring the department of brands from the Secretary of State to the State Live-Stock Inspector.

At least half, and probably two-thirds, of the measures which will be voted upon next fall concern matters that should be settled by the legislature and not by the electorate. The reason why 33 bills are to be voted upon is evident. The legislatures of Colorado have not done their duty. The men who were supposed to represent the people have not represented them; legislators have not been responsive to the wishes of their constituents; they have refused to place much needed and much desired laws on the statute books. One recalcitrant legislature has followed another. For these reasons the electors are compelled to do their own legislating.

It is not proper that the electorate should supersede the legislature as a legislative body. The initiative and referendum should not be used as a substitute for a representative body in enacting general legislation. The limitation of the number of initiated measures appears to be the only way to keep that number within reasonable bounds. Experience this year indicates that some method of securing a short ballot will probably be necessary.

## THE END OF PUGILISM

ON JULY 4 two years ago the most important thing that occurred in the United States—vide the newspapers—was a prize-fight. Richard Harding Davis, Jack London, Rex Beach and a score of other writers and newspaper men had for weeks been serving up fight prophecies and prognostications to the newspaper public. Any minute detail that had to do with Jeffries or Johnson assumed immensity because of its connection. An unhealthy frenzy pervaded the sporting pages. The climax of interest had been reached.

What a difference on July 4, 1912! The Flynn-Johnson and the Rivers-Volcast fights were unimportant events. In the history of pugilism they marked the beginning of its downfall. Prize-fighting, the outgrowth of legitimate boxing, has been killed by the commercialism which developed around it and finally controlled it. News reports state that the promoters of the Flynn-Johnson fight lost \$44,000. The gate receipts were only \$20,000, the attendance being only 4,000. Enthusiasm was absent. The Rivers-Volcast fight ended in a mutual claim of foul.

For years the territory open to a "championship contest" has been getting

smaller and smaller. It is not now possible to hold such a contest in any thickly populated state or near any large city. Hence the attendance is necessarily limited to the few enthusiasts who desire to make a long trip. The incentive for making such a trip has very obviously diminished. The profits of the promoters have correspondingly decreased. Hence it is that prize-fighting is doomed to come to its death through the force that brought it into existence—great profits caused commercialism to exploit it, losses will cause commercialism to discard it.

### A SCARELESS SCARECROW.

From the Kansas City Times.  
After Mr. Bryan's remarkable speech in the Baltimore convention Saturday afternoon, a delegate of Oklahoma named Giddings said:  
"I never scratched a Democratic ticket in my life. Can the gentleman from Nebraska say the same?"  
The question was intended as a scorching reference to Mr. Bryan, not alone for his implication of independence in the speech he had just made, but also for his fight some time ago on Mayor Dahlman of Omaha.

And guess who applauded the plea for "yellow dog regularity" of the delegate of Oklahoma. Tammany, of course. Tammany, whose bosses, with their masters of Wall street, know no party lines except matters of Wall street. Tammany, who stands for precisely the same thing in American politics that Barnes and Penrose and Lorimer stand for within the Republican machine. But that appeal for regularity without regard to principle has no meaning now for the great masses of the American people. They have found it out as the old scarecrow of the interests that work for Barnes and Penrose and Tammany.

### LIVING ON FAITH.

From the Pittsburgh Dispatch.  
The fact that the fiscal year will close without the money needed for the operation of the government being furnished by appropriations is a remarkable exhibition of legislative procrastination. That much is undeniable, as is the further statement that the middle is due to the fact that congressmen have spent seven months in playing politics and putting off the business work until there is no more politics to be played. But it is principally hyperbole to argue that it is necessary for the government to shut down next Monday.  
The constitutional provision is that "no money shall be drawn from the treasury but in consequence of appropriations made by law." This, of course, renders it necessary to establish any legal claim on the government for services rendered. There shall be authority for it in an appropriation. But it does not forbid government employees in the army, departments, judiciary or congress from discharging their duties and trusting congress to appropriate the money to pay them.  
Congressmen, president, supreme judges and so on down to the scrubwomen, will continue at work next week. But they will have to do so at their own risk. Their trust will not be misplaced. But it does not make a good record for congress that the great and wealthy government must subsidize even for a day on the faith of its employees.

### THE SEEING EYE.

From the Kansas City Star.  
The perfectly fine thing about the Chicago and Baltimore "events" is that everything done at either place was done or is being done with the people who know, looking on.  
The people were no sooner defrauded in Chicago than they had their minds made up to recall that defrauder. The politicians could do crooked things, but they could not make a crooked appeal. The trouble with the crooked plans was that the people knew as much about the facts as the bosses did.  
So, with the situation in Baltimore, the people are looking on, not as innocent bystanders, but as umpires if not as actual participants. And they are judging this second event in the light of what they learned from the Chicago deal.  
A few years ago the fight in the Republican ranks would have been taken to mean that the Democrats could do anything in their convention and still win. And almost anything would have been done. Even the boss politicians know better than that now. Even the little ward politicians know better. They all realize that the party name is no longer blindly worshiped. They know that the people are in the game not as party men, but as citizens.

How far this knowledge is going to influence the ultimate action of the Democratic representatives remains to be seen. In Chicago a crooked machine was milling to wreck its party and subject the beneficiary of its fraud to certain and humiliating defeat, rather than let the people rule. But the point is that the old security of plunder is gone. The alliances between the bosses of both parties are perfectly understood. The people are on the watch, and if their party conventions do not act as their agents they will do what they wish to do by direct action.

### THE REFORM OF NATIONAL CONVENTIONS.

From the New York Sun.  
If there is any representative body that should be dedicated to deliberation, it is a convention assembled to nominate candidates for president and vice president. The function is so vital to the welfare of the nation that interference with the exercise of that function should not be tolerated either from without or from within. Yet it is not a fact that the national conventions at Chicago and Baltimore were little better than mobs at some stages of their proceedings.  
Order returned only after delegates had shouted themselves hoarse in demonstrating their support of candidates of their choice; and sometimes it was necessary to employ the police to restore control of the convention to the chairman. He had to deal also with interference from without; that is to say, from spectators on the floor and in the galleries, who are admitted with the understanding that they are to see and listen and are not to be heard. As a matter of fact, they contribute more noise and confusion than the delegates themselves when they get out of hand. At times there is a mob on the floor and a mob in the galleries, and the combination is fatal to the conduct of business. So much time is wasted in waiting for these "demonstrations" to stop, or in suppressing them by threats or force, that four or five days are required to transact business that should be done in two.

Is it not about time to put an end to this madness and folly? Rules should be made and enforced to prevent "demonstrations" by delegates on the floor which take the form of marching about with state banners and yelling explosively until exhaustion comes. Deliberate action under the circumstances is impossible, and to prevent it is the purpose of the delegates who join in the uproar. Every such "demonstration" is an attempt to stampede the convention for one of the candidates.

The problem of keeping the delegates in their seats attending to business is not so difficult as that of preserving order in the galleries. The spectators are not present to deliberate but to get an idea of the situation they can. Some of them are brought into the convention hall to play or to talk part in "demonstrations," that is to say, to interrupt the orderly course of proceedings. It would not be polite or right to exclude the public from the galleries, but the number of spectators might be limited to the capacity of the auditorium of paid delegates of the convention to preserve order. The sight of policemen in a deliberately body of force dispersing a reluctant crowd is a disgrace to the nation. The police are the national representatives of 1912 have

been conducted the presence of uniformed police has been necessary. This sad, but the truth is, the reform of the convention must to nominate candidates for president and vice president is in the hands of the managers of the political parties. It is a very important reform.

### A GREAT LITTLE ADDER.

From the New York Times.  
George Seifert sold two of his cows on Saturday to a party of Plainfield, one for \$50 and the other for \$55. Total amount for both \$105.

### IN THE ARKANSAS CULTURE BELT.

From the Camden Herald.  
An interesting talk on Norwegian literature, by Mrs. J. W. Meek.  
"Sketch of Old Bull," by Mrs. E. M. Gudin.  
A talk on Edward Grief by Mrs. Hudson.

### ON APPROVAL.

From the Antigo Journal.  
Mrs. G. H. Maxwell, 221 Fifth avenue, entertained at dinner on a recent evening in honor of Miss Meda Stevens, who will become the bride of Robert Condie during the summer months.

### A WARM PROPOSITION.

From the Glenwood (Pa.) Opinion.  
Miss Mary Rathke is expected home tonight from Wahoo, Neb., to spend a few days, and a young friend, also a teacher there, Miss Burney, is expected with her.

## Center shots

By ED HOWE.

When a citizen tells how low water and lightning rates are in other towns, he is not always as reliable as he expects others to be when they discuss his affairs.

The doctrine that a rich man can't get into heaven doesn't satisfy us poor people as much as the author of the statement. Intended, anyway, we tell other men stories on the rich.

When a man makes a promise, and asks for more time in which to carry it out, I am disposed to be charitable; I have myself made promises, and asked for more time.

When a man is "jewed down" on the price of an article he is selling, and finally reaches his lowest figure, he gets a mean look in his eyes, you should be able to see and either buy promptly or get out. Otherwise, he will begin to talk mean in a minute, and a fight would please him about as well as a sale.

When there isn't a good opportunity to tell how mean and tricky men are in business, someone starts a story of how free and familiar they are with girls.

When I saw wood, I think I could get it off easier with an ax; but when I am chopping, I long for a saw.

People are too fond of items in the newspapers that cause them to exclaim: "Well, for heaven's sake! Have you seen this?"

When a man makes out his monthly bills, and runs across an account of yours four or five months old, don't you know he will talk about you like a pickpocket? You should either pay, or put up a talk that will satisfy him.

## He Who Will Not Understand

By RUTH CAMERON.

There are many people in this world who are naturally and unavoidably stupid; there are equally many, if not more, who are deliberately stupid. That is the conclusion to which I have come after many experiences with people WHO WILL NOT UNDERSTAND.

Surely you have met such people. Everyone has. But perhaps you do not at once recognize the classification. Let me introduce you to one or two divisions of this species.

In the first place, there are the people who try not to understand what you say. These usually belong to your own family or to that inner circle of friendship in which it is allowable to be disagreeable. Only in his relationship with his family or his dearest friends does this specimen of the species exhibit his unwillingness to understand things. Outside of this he is sufficiently quick and intelligent, which proves of course that his stupidity is the deliberate and not the avoidable kind. If, in a moment of absent-mindedness or hurry, you say just the opposite from what you mean, this type of person always picks you up and makes you correct yourself. Or if you speak out suddenly and rather blantly about some topic which you have been mulling over in your mind, he proceeds not to have the slightest notion what you are talking about. In both cases he could have known perfectly well what you meant if he had tried to know. But he didn't.

That is one example of the people who do not understand. Another division is that of the deliberately stupid folks who will not understand intentions. Perhaps a better description of this type is the people who are determined to misunderstand. Suppose you and one of your friends have talked over the possibility of taking some little excursion together. No definite plans are made and the business is left in the air. It is much her place as yours to take up the matter again. You are busy and do not refer to it. When your friend calls your friend up you find that she is "hurt" because you did not want to go. In the bottom of her heart she knows just how things are, but she is determined to misunderstand and consequently you must spend a lot of energy and time soothing her injured feelings.

There is hardly time enough in life to fully understand each other when we try our best. There is no time to be wasted in deliberate misunderstanding.

Let's be sure that we do not go the way talked of by those WHO WILL NOT UNDERSTAND.

## What the Press Agents Say

### HINTS FROM THE GARRICK PLAYERS

Grand Opera House  
"The Heir to the Throne" next week.  
Matinee today—"The Blue Mouse."  
Last performance "Blue Mouse" tonight.  
Manager Faught—"Business is improving."  
No more season tickets on sale.  
Seats selling for Monday night.  
Box office open 8 a. m.  
Twenty-five cents—Matinee prices.  
Fifty cents—Parquet, evenings.  
Thirty-five cents—Dress circle, evenings.  
Twenty-five cents—Entire balcony, evenings.  
Watch for the light, tonight.  
"Time, Place and Girl"—near future.  
Quincy Adams Sawyer—"Very soon."  
Watch papers for next Thursday.  
Matinee—8:30 sharp.  
Evenings—8:30 sharp.  
Phone Main 720, 490, 491 and 492.

### NOTES FROM THE BURNS

Ladies, this is matinee day.  
Your fleeting opportunity—"The Lily."  
July 6th is like "the morning after."  
Our matinee 25-cent seats are real dollar values.  
Talk about the "big show"—just wait and see "The Lion and the Mouse."  
The Burns can accommodate 1,500 ladies this afternoon, but there would be that many thousands if they knew the actual quality of "The Lily."  
The theater is now equipped with all bells which ring two minutes before the curtain ascends on every act.  
There are no posts, hanging lamps or other obstacles in "the playhouse beautiful"—just a clear view from every seat in the theater.  
The "society chorus" for "Forty-five Minutes From Broadway" will be a distinctive feature of our production of the famous George Urban musical comedy.  
Many have asked the date of our first musical comedy. Not until every element required for a successful production is worked out to the highest point of perfection.  
Hammerstein discovered Walter Donaldson on a laundry wagon, but the boy with the "golden voice" has all kinds of talent. Talent, like gold, is when you find it.  
If there is an ambitious boy or girl in Colorado Springs who thinks he or she has a voice worthy to be heard in the chorus for "Forty-five Minutes," a try-out will be given under favorable conditions. Drop a line to Mr. Chase in care of The Burns.

I wish that every woman who has given latter-day social conditions a thought could witness the performance of "The Lily," wrote Beatrice Fairfax, in an open letter to the women of America. Your chance to be enthralled this afternoon or tonight—then, never again.

The box office is open this morning at 9 o'clock. General will readily give you 200 as soon as the line is cleared, and if you'll act on a good suggestion, your order for the desired seats will be placed before noon. Remember last Saturday and the box office rush.

### AT THE MAJESTIC, LET NONE PUT ASUNDER, FIVE REELS, TODAY

Drink is fastening its arms around Frank Downing; he has broken promise after promise made to his wife to reform and she, in despair, appeals to a friend, who endeavors to persuade her to leave him and accept a position as teacher in the village school in a distant part of the state. One night Downing comes home helpless, having spent his week's wages for drink, and there is no food in the house for Edna and the boy, Tommy. This derides this question and Edna and the little boy leave the degraded man, to go forth into the world and earn their living.  
Upon arriving in the village, where Edna and Tommy are located, Edna meets and inquires the way of John Stevens. He is a widower and is devoted to his little Doris, to whom he is both mother and father. Through this chance meeting a friendship is established between Edna and John, which grows stronger and stronger as time passes. John discovers that he has a very dead wife, and asks her to be his wife. Edna then admits her love and confides her story to him. He is willing to wait until she can secure a divorce. During vacation Edna and Tommy return to their old home town, and here she secures her freedom. And how queer fate enters the picture. While she is away a man, a wreck and practically a tramp, is arrested in the village and tries to dispose of some carpenter's tools, which are recognized as being the property of John Stevens. The man is Downing. He is taken to Stevens' shop in order that the tools may be identified. Downing makes an appeal to Stevens, the appeal of desperation, and John, who is touched, saves the man from the law's grasp by stating he is a new workman whom he has just employed.  
Downing is put to work and Stevens helps him to fight his curse. Finally, he is reclaimed and becomes a man in fact.

Edna returns to the village, full of hope, and Stevens still ignorant of the relations that once existed between her and the man he has saved, is awaiting her with all a true lover's impatience. Edna enters the shop, and comes face to face with Frank. And thus does John learn the truth. The situation appeals all—but John, a man who knew his God and knowing him abided his will. He joins their hands, saying: "Whom God Hath Joined Together, Let No Man Put Asunder." Downing, with the past before him, refuses the sacrifice and endeavors to leave, but John stops him, and God's will, he says, and the reunited husband and wife pass out of his life together.

### CLASS DISCUSSION AT ASBURY M. E. TOMORROW

The Men and Religion Forward movement class of Asbury Methodist church, Fourteenth and Washington, will hold its usual class discussion on tomorrow morning at 9 o'clock. The leader of discussion will be A. C. Colton. All men of the church are cordially invited.

## TOURISTS!

Don't fail to secure some of the Croft water colors of Colorado, 35c to \$15 each. Genuine Crofts are sold only at this store.

**HARDY'S**

## THE HASKIN LETTER

WOMEN'S CLUB WORK  
XII—AFFILIATED ORGANIZATIONS AND FOREIGN CLUBS

By FREDERIC J. HASKIN.

A number of other women's organizations aside from individual clubs, have recognized the importance of the General Federation of Women's Clubs to the extent that they have affiliated with the federation in order that their own organizations might profit by its influence and strength. Among these are the Women's National Rivers and Harbors congress, the International Sunshine society, the United Society of New England Women, the Needlework Guild of America, the Women's International League of Right Thinking and Living, the Women's Auxiliary to the Railway Mail Service, the League of American Pen Women, the International Council of Women, and the Women Teachers Association of America. These are affiliated directly with the general federation itself. In addition many local branches of other national organizations for women are connected by affiliations made through the state federations. In this way the general federation is made to represent the united efforts of all the organized women of the country even though some of them appear to be absolutely independent.

Sometimes the officers of an affiliated organization also are active in the general federation and take this means of broadening the influence of their own organization. A case in point is that of the Women's National Rivers and Harbors congress, which came into existence in 1898. Its first meeting was held at Sikeston, Mo. It was organized at the request of the National Rivers and Harbors congress as a "cooperative organization for the purpose of educating the people of the country in the need of conservation and development of the nation's waterways as a means of transportation. The women, however, go much further than this. Their congress asks that consideration be given to the appearance of our streams, that they be protected from all kinds of pollution and be conserved for their aesthetic value to the nation. As the general federation has a standing committee working for this same object the advantage of the affiliation to the congress is most obvious.

Needlework Guild Aids Needy.  
The Needlework Guild of America is a modest, conservative organization having a membership of nearly a quarter of a million women and benefiting even a greater number of needy people. Its work is purely philanthropic, consisting of supplying clothing to those in need without regard to distinction of color, sex or creed. Every member is pledged to contribute annually at least two garments to the guild. These are distributed unostentatiously through various channels. The guild now has about 400 branches located in the different cities of the country and most of them cooperate with some other women's organization both in adding to their membership and in the distribution of the garments among the people in greatest need of them.

In point of numbers the International Sunshine society is a larger organization than the federation itself, since anyone willing to "pass a kindness on" may belong. It has headquarters in New York city with branches throughout the country. The object of the society is to give sunshine to the lives of those who need it and the needs recognized are of infinite variety. Many of the women's clubs have active branches for sunshine work, which add greatly to the strength of the Sunshine society. The society has done a great deal in caring for needy children and is especially interested in providing for blind babies. It owns an equipped and well-equipped permanent home for blind babies in New Jersey and is responsible for the control of several others. It also manages or controls several vacation homes for self-supporting women and a large sanatorium or rest house for convalescents. Its beneficiaries are the broadest of any philanthropic organization in the world and its makes no distinction in their distribution because of race or creed. Its cooperation with the philanthropic sections of the federated clubs is especially strong.

Council Not Well Organized.  
The International Council of Women is a great organization having many of the same objects as the General Federation of Women's Clubs, but its organization is less regular. It does not have the systematically organized state branches, although most of the large cities have local councils which are active above various lines of club work and are generally affiliated with the other local organizations of women. Most of its leaders in the United States are officers in the general federation and its branches in London and other foreign cities are closely in touch with the organized clubs. The International Women's League of Right Thinking and Living is an altruistic organization in which many prominent New York are actively interested. In New York it cooperates with many movements for the improvement of the living conditions of the poor although its work is intellectual rather than practical. Its membership is scattered throughout the country and it has a number of corresponding members in foreign cities.

The Women's Auxiliary of the Railway Mail Service, which first was organized to promote sociability among the railway mail clerks, is one of the newer affiliations of the general federation. It now has taken up many lines of work helpful to the home life of its members and it has 41 state branches, most of which also are united with the state federations.

The League of American Pen Women is an organization of women writers with headquarters in the national capital and members in all parts of the country. Its work is for the mutual benefit of women writers and the elevation of the public press. It has representatives in 22 states and also in Alaska, South America, England and India. Its membership includes many of the most prominent women writers in America.

Jewish Women Do Good Work.  
Among the organizations which are affiliated through the state or city federations is the National Council of Jewish Women. At most of the general federations greetings are received from this great organization of Jewish women who, in their charities and philanthropies, set a pace which others find hard to follow. There are frequent exchanges of courtesies between the council and the federation and each is apt to call upon the other for cooperation in any new line of improvement work. The subjects upon which the two organizations have worked most in common have been in the interest of child labor laws and of legislation for improving the conditions of women in industrial work.

One of the greatest organizations in the world aiming for general helpfulness is the Women's Welfare department of the National Civil Federation, of which Mrs. John Hays Hammond is president. Its membership includes many of the wealthiest and most influential women of the nation who are contributing liberally of their means and time towards the investigation and aid of all classes of wage earners. This organization, however, works in rather an indirect way to accomplish its reforms, depending rather upon the effect of women's influence than in aggressive work. Most of its officers are active in other organizations affiliated with the federation, so that the two great bodies cooperate, one giving time to the study of the needs of persons in unfortunate conditions and the other taking active measures to meet these needs. In justice to the women's welfare department, however, it must be stated that through the personal influence of some of its members it has been able to accomplish many practical improvements in securing better provision for the comfort and health of convalescent workers in a number of lines of industry and that its work is yet comparatively young.

Another Active Organization.  
Another organization in which many federated clubwomen are active is the American Women's republic, which has headquarters in St. Louis and branches in every state. This appeals especially to women in the rural districts away from other club activities, and there are thousands of rural and city chapters in the country. The republic has three lines of work, educational, financial and industrial, and its object is for the mutual benefit of all its members. Through its educational department, courses of study in many subjects, including music and art, are provided. Besides this, through its financial and industrial departments, various articles are supplied to its members at reduced rates, and may be sold in a manner to yield a revenue. In many parts of the country there are chapter houses under the direction of the local organization of the republic where these supplies are distributed.

The republic is modeled after the plan of the United States government, every member being regarded as a citizen. At its head is a president and vice president and a supreme court composed of prominent women lawyers appointed by the president. Its congress includes a senate, elected by the chapters of the different states, and a house of representatives, who are elected by the individual members. The membership is rapidly approaching a million and its activities are growing in many directions.

A number of foreign clubs are affiliated with the general federation. Two of these, the Pioneer club and the Society of American Women in London, are located in London, and always are generous in extending hospitalities to visiting clubwomen. Besides these there are the Montreal Women's club in Canada, the Colombo museum on the island of Ceylon, the American Women's club in Shanghai, China; the Mexican Sorosis at Saltillo, Coahuila; the Alumnae association of the Santiago college at Santiago, Chile; and four clubs in Alaska. These last recently have federated and thus enjoy a two-fold union with the general federation. These are called the Magpie club and the Skagway of Sitka, and the Keogak Kowak and the Women's club of Nome. Besides these, which are regularly affiliated, the general federation has certain fraternal relations by correspondence with women's organizations in Berlin, Vienna, Paris, Stockholm and several other European cities.

Tomorrow—NATIONAL FEDERATION OF WOMEN'S CLUBS.

**FROM KNOCKOUT**

YONKERS, N. Y., July 5.—George Newson, 18 years old of this city, died after being knocked out in box fight at the Getty Athletic club this evening. Death was due to a fractured skull. Newson was knocked out in the second round by Jim McDragin, also of Yonkers. McDragin delivered a blow that stretched Newson unconscious, his head striking hard against the floor. McDragin aims to be Broderick, the referee, having been arrested.

# PALZER MUST MEET BIG SMUDGE SOON

KANSAS CITY, July 5.—I never want to see another pair of boxing gloves, either in private or in public, emphatically declared Charles Johnson, while here a few minutes last night en route to Chicago. Johnson was in a happy mood, humbled by

CINCINNATI, July 5.—The final smudge in the men's and women's singles in the first tennis tournament to be played here today. Gustave T. Hard, national doubles champion, who is 17, will tomorrow be the Challenger for the championship meeting the title holder Richard Palmer of New Jersey.

In the women's singles Miss Mary Sutton of Los Angeles won the right

his flight yesterday with him Evans at Las Vegas.

"If Al Fisher wants to fight me," declared the champion, "he will have to do it not later than Labor day, for on the day following I will return from the Ring forever. That's final—I quit then for good."

Johnson said he had cleared \$35,000 on his victory over Flann. He received \$31,000 from Jack Curley, the promoter, and won \$7,000 in betting on him. He

was engaged, Miss Sadrona, added, to marry tomorrow for the first time. She defeated Miss Mary Brown also, of Los Angeles.

# CHICAGO MARKET

CHICAGO, July 5.—Grain prices went sliding downward today because of a generally worldwide improvement in crops. Wheat closed 1½ to 2¼¢ lower. Corn, the whole tide of trade kept against the bulls. Since the previous close the entire northwest received rain in a way that rendered all doubt as to a flattering prospect. Cable news was on the side

traders. A banner day for the board was the 15th, when the board found themselves compelled to stand on a fast sinking market, and weathered the worst break of the season in the last 15 minutes. July wheat went up noticeably better than deferred contracts. The regular season has been the best of the wheat year, but has been centralized, and there is said to be little elevator room available for new holdings. Between the opening and the close the September option fell from \$1.01 to \$1.02½, with the latter closed at \$1.02½. The board figured a loss of ¼¢ net. No July option in corn, as in wheat, not hammered, and showed some to rally. September fluctuated from 67½ to 69½, closing weak, 68½ net lower, at 67½. No. 2 yellow

at 67½	to 69½,	closing weak, 72½
net lower, at 67¼.	No. 2 yellow	quoted at 72¼-72½.
bolter, that the largest crop ever	made this autumn and become as	large and made oats at times almost as
heavy and depressed as wheat. And	Outside limits touched for Sep-	tember proved to be 36½ and 37½, with
a close 36¾, a fall of 1½c compared	with 48 hours previous.	
The contract between packers and	provisions. The average set-	back for pork, lard and bacon did not
amount to more than 5c.

19th day of July, 1912, at the hour of eleven o'clock a. m., to duly weigh and consider objections, if any there be, to such annexation; that the lands mentioned above which are to be proposed to be added to the City of Colorado Springs, are being offered for sale by the City of Colorado Springs, as follows: Being a portion of Section Twenty (20), Township Fourteen (14), South, Range sixty-six (66) west of the Sixth Principal Meridian, more particularly described as follows: Beginning at the intersection of the line of the Colorado River with the South boundary line of the Prospect Lake Addition to the City of Colorado Springs, Colorado; as recorded in Plat Book N, Page 11, El Paso County Records, produced West of the center line of the Grand Slough center line of Hancock Street S. 20 degrees 20 minutes W. 55.6 feet to its

described as follows. Beginning at the intersection of the Colorado and Prospect Streets, the center line of the Prospect Lake Addition to the City of Colorado Springs, Colorado, as recorded in Plat Book N, Page 11, El Paso County Record, produces West 20 minutes 20 seconds, their long said center line of Hapgood Street S. 20 degrees 20 minutes W. 55.6 feet to its intersection with the Northernly right-of-way line of the Colorado and Southern Railway line, thence following said intersection with the line of the Colorado and Southern Railway line S. 1.005 37 feet, and whose long said chord bears E. 45 degrees 23 minutes E. 17.41 feet; thence on tangent S. 43 degrees 30 minutes E. 875.0 feet; thence on a curve to the left whose radius is 1800 feet, bearing S. 69 degrees 40 minutes E. 175.0 feet, whose chord bears S. 75 degrees 40 minutes E.

intersection with the Northerly right-of-way line of the Colorado and Southern Railway; thence following said right-of-way line to the intersection of the same with the Northerly right-of-way line of the Colorado and Southern Railway, which intersection is 1,005.37 feet, and whose bearing is S 89° 56' 15" E. 174.1 feet; thence on tangent S 83° 30' 30" E. 875.0 feet; thence on curve to the left whose radius is 180.0 feet, central angle is 69° 57' 58" E. 10.0 feet; thence on tangent S 78° 45' 40" E. 514.18 feet to a point on the North and South center line of the N. & W. of the E.  $\frac{1}{4}$  of Section Twenty (20), afore-said place of reference, along said center line of the N. & W. of the E.  $\frac{1}{4}$  of said Section Twenty (20) a distance of N. 89 degrees 17 minutes E. parallel with and 10.0 feet North of the North and South center line of the N. & W. of the E.  $\frac{1}{4}$  of the N. E.  $\frac{1}{4}$  of said Section Twenty (20); thence on tangent S 78° 45' 40" E. 514.18 feet to the East end of said Sec. Twelfth (20); thence on

354.18 feet to a point on the North and South center line of the E.  $\frac{1}{4}$  of the E.  $\frac{1}{4}$  of Section Twenty (20) aforesaid, thence along said center line N. 89 degrees 09 minutes E. 32.02 feet, thence N. 89 degrees 17 minutes E. parallel with and 10 feet North of the South line of the N. E.  $\frac{1}{4}$  of the S. E.  $\frac{1}{4}$  of the N. E.  $\frac{1}{4}$  of said Section Twenty (20) 32.2 feet to the East line of said Sec. Twenty (20), thence along said East boundary line of said Section Twenty (20) N. 0 degrees 02 minutes W. 64.6 feet to the N. E. corner of said ten-acre tract; thence S. 89 degrees 23 minutes W. 668.7 feet to the N. W. corner of said ten-acre tract; thence along the aforesaid North and South center line of the E.  $\frac{1}{4}$  of the E.  $\frac{1}{4}$  of said Section Twenty (20) N. 0 degrees 02 minutes W. 24.1 feet to an inter-

The East boundary line of said Section Twenty (20). N. 0. degrees, 02 minutes W. 64.65 feet to the N. E. corner of said ten-acre tract; thence S. 88 degrees 23 minutes 56.87 seconds to the N. E. corner of the said ten-acre tract; thence along the aforesaid North and South center line of the E  $\frac{1}{4}$  of the E  $\frac{1}{4}$  of said Section Twenty (20). N. 0 degrees 03 minutes W. 2.11 feet to an intersection with the authorized boundary line of the Prospect. The line is filed on the 14th day of March, A. D. 1911, and recorded in Book N, Page 11, El Paso County, Colorado. Records: The above along said Southerly boundary line S. 88 degrees 23 minutes 56.87 seconds W. 32.67 feet; thence on a 10-degree curve to the right 352.33 feet; thence N. 79 degrees 54 minutes W. 158.94 feet;

line of the Prospect Lake boundary  
defined on the 14th day of March, A. D.  
1911, and recorded in Book N, Page 11,  
El Paso County, Colorado. Records  
thence along said Southerly boundary  
line: S. 84 degrees 32 minutes W. 19.45  
feet; thence S. 84 degrees 32 minutes  
W. 32.67 feet; thence on a 10-degree  
curve to the right 352.33 feet; thence  
N. 79 degrees 54 minutes W. 158.94 feet;  
thence on a 10-degree curve to the  
right 663.65 feet to the N. E. corner of  
the Prospect Lake Addition; and  
thence following the boundary line of  
the aforesaid Prospect Lake Addition;  
S. 0 degrees 03 minutes W. 663.05 feet;  
thence N. 87 degrees 48 minutes W.  
14.00 feet to the post beginning  
containing 64.5 acres more or less  
courses true. Magnetic variation 14  
degrees 20 minutes East; excepting,

thence from a 10-degree curve to the  
right 120 feet to the N. end of the foresaid  
line; thence S. 81 degrees 48 minutes West  
the Prospect Lake Addition; thence  
thence following the boundary line of  
the aforesaid Prospect Lake Addition  
S. 0 degrees 33 minutes W. 663.05 feet  
thence N. 81 degrees 48 minutes West  
1,338.00 feet to the point of beginning  
containing 64.3 acres, more or less,  
courses true, Magnetic variation 14  
degrees 20 minutes East; excepting,  
however, a six (6) foot right-of-way  
for pipe line granted to the City of  
Colorado Springs, Colorado, by deed  
and recorded in Book 358, Page 27, El  
Paso County Records.

Done by order of the Council this  
14th day of June, 1912:

CHAS. CHAPMAN,  
City Clerk.

however, a six (6) foot right-of-way for pipe line granted to the City of Colorado Springs, Colorado, by deed, and recorded in Book 358, Page 277, El Paso County Records.

Done by order of the Council this 14th day of June, 1912:

CHAS. CHAPMAN,  
"City Clerk."

# BEST SUB-IRRIGATED FARM IN EL PASO COUNTY

**FOR SALE OR EXCHANGE**—170 acres, 7 1/2 miles northeast of Colorado Springs, on county and Garden Ranch road to Falcon.

**GROWING CROPS**—23 acres corn, 28 oats, 6 kafir corn, 8 millet, 1/2 acre potatoes, 1/2 acre in Hubbard squash, melons, sweet corn and peanuts; nice garden, good team, lumber wagon and all farm tools, new and first class; two dozen chickens.

**IMPROVEMENTS**—5-room frame house, FURNISHED, stable for 6 head horses, storeroom for hay and grain, chicken house, storeroom, hog pens, well 30 ft. deep, 12 ft. of soft water meshgash; nice gravel walks. On account of my land business, here and in New Mexico and Texas, I have no time to give to this farm, and will exchange for my Colorado Springs property or stock of merchandise, or might take auto as part payment. If you are in poor health, and want a money maker and a nice place to live, where you can have chickens and a few cows and if you wish to raise your own feed, you could do well here, as there are 40 acres of this land that will raise alfalfa without irrigation, subirrigated. This splendid farm can be had by making a small cash payment down, balance on long time. PRICE \$4,000, with crops and team. I will be at farm from Saturday noon until Sunday noon. Any one interested, come out and look the farm over. Owner.

**E. L. MUMMA**, M. D., D. O., 608-610 Exchange National Bank Building. Phone 1061. Office, 1914 residence, 1822.

**DR. CONWAY**, Still's graduate, post-graduate, Kirksville, Mo., graduates, phone 600 614 N. Tejon Bldg.

**DR. GENTLE** SCHMIDT, expert on spinal curvature cases. 6 El Paso Bldg. Phone Main 243.

**LEGAL NOTICES**  
**THE BATTLE LAKE CONSOLIDATED COPPER COMPANY**  
Colorado Springs, Colo. June 26th, 1912.  
To the stockholders of the Battle Lake Consolidated Copper Company:  
Notice is hereby given that the regular annual meeting of the stockholders of the Battle Lake Consolidated Copper Company will be held at the office of the company, Suite 409, Mining Building, Colorado Springs, Colorado, on Thursday, July 12th, 1912, at 10 o'clock a. m. The purpose of the meeting is to elect directors and to hold a special meeting of the stockholders of the Battle Lake Consolidated Copper Company will be held at the office of the company, Suite 409, Mining Building, Colorado Springs, Colorado, on Thursday, July 12th, 1912, at 10 o'clock a. m. The stockholders of the company for the purpose of the meeting will be closed for ten days prior to the date fixed for said meeting, and will remain closed until the opening of business on the day after final adjournment of said meeting.

**ANNA L. PALMER**, F. W. STEHR, Stockholders of The Battle Lake Consolidated Copper Company. WILLIAM WESTON, President.

**NOTICE TO CONTRACTORS**  
Bids will be received by the City Clerk until 5 o'clock a. m. of Saturday, July 13th, 1912, for the purpose of completing in kind of the Dam to Reservoir No. 2. The following is the engineer's approximate estimate: 20,000 cubic yards earth embankment, 2,500 cubic yards masonry work, 10,000 cubic yards rock work, 10,000 cubic yards concrete work, 10,000 cubic yards steel work, 10,000 cubic yards iron work, 10,000 cubic yards copper work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic yards platinum work, 10,000 cubic yards nickel work, 10,000 cubic yards zinc work, 10,000 cubic yards lead work, 10,000 cubic yards tin work, 10,000 cubic yards antimony work, 10,000 cubic yards arsenic work, 10,000 cubic yards bismuth work, 10,000 cubic yards cadmium work, 10,000 cubic yards mercury work, 10,000 cubic yards tellurium work, 10,000 cubic yards selenium work, 10,000 cubic yards vanadium work, 10,000 cubic yards niobium work, 10,000 cubic yards tantalum work, 10,000 cubic yards columbium work, 10,000 cubic yards molybdenum work, 10,000 cubic yards rhenium work, 10,000 cubic yards ruthenium work, 10,000 cubic yards rhodium work, 10,000 cubic yards palladium work, 10,000 cubic yards silver work, 10,000 cubic yards gold work, 10,000 cubic
